North Sydney Public School upgrade

Project update

October 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

The upgrade of North Sydney Public School will deliver 19 new flexible learning spaces, a new administration area, library, hall, covered outdoor learning area and a new entrance gate on Bay Road. The school's existing canteen and student amenities were also funded to be refurbished.

Progress summary

Works on new Building I are progressing with the ground floor concrete slab now poured allowing the formwork for the ground floor columns to be put up. Water, electricity and information technology services continue to be installed across the works zone.

The school is now using three flexible learning spaces recently delivered in Hub G, along with the refurbished canteen and student amenities in the McHatton Building.

Next steps

With works progressing well on new Building I, the first floor concrete slab will soon be poured. Works to pour the ground floor concrete slab of new Building J will also soon start and following this the formwork for its ground floor walls will start to be put in.

In the River Building, the upgrade of the student amenities is nearly complete and will be available for student use in Term 4.

Construction hours

This work is taking place 7 am to 6 pm Monday to Friday and 7 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays unless otherwise notified.
