

New high school for Melrose Park

Planning update | April 2024

Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

Project overview

To accommodate current and future growth in the area, this project will deliver a new high school for the growing community in Melrose Park. This is in addition to the redevelopment of Melrose Park Public School and upgrades for Dundas Public School. Further updates will be released as this project progresses.

This school will not only provide essential education infrastructure but also accommodate the anticipated increase in enrolments in the area and allow families to conveniently access educational facilities close to home.

The new school is scheduled for completion in 2027.

Progress summary

During the early planning phase we have:

- considered demographic trends, intake areas, technical studies, planning requirements, transport links and possible shared area opportunities for the new school
- conducted site investigations and needs analysis
- worked with internal architects to develop masterplan options.

Next steps

- Finalise concept designs and ongoing development of the design in consultation with representatives from the Department of Education.

Keep in touch

We look forward to sharing more information with you as the project progresses. You can stay informed by regularly visiting the project webpage and you can contact us via email or phone if you have any questions or feedback about the new Melrose Park High School.
