

Box Hill Public School and Box Hill High School

Works notification | 23 September 2024

As planning for the new schools in Box Hill continue, the department is working to deliver a purpose-built temporary facility at George Street, Box Hill to cater for the new Box Hill Public School.

This temporary facility will aim to provide the infrastructure needed to ensure that local families can send their children to a local primary school sooner.

Site establishment temporary school site – Tuesday 24 September 2024

From Tuesday 24 September, we will be establishing the construction site for the temporary school and begin to conduct low impact works at the site. These include:

- installing banner mesh surrounding the site
- create designated entrances and exits for construction vehicles
- installing site sheds and worker amenities
- soil erosion control
- preparatory works for building of the staff car park.

Entrance to the construction site will be from Newfoundland Way and traffic control will be in place when necessary to safely guide vehicles in and out of the construction site. Please view the site plan overleaf for further information.

Any works at the site will take place between 7 am and 5 pm Monday to Friday and between 7 am and 3 pm on Saturday. The community will be notified if works outside of these hours are required.

We thank the community for your patience as we work to deliver these important temporary facilities.
