

Box Hill Public School and Box Hill High School

Works notification | 5 March 2026

As part of the NSW Government's plan to rebuild public education, a project is underway to deliver new permanent educational facilities in Box Hill including a public preschool, primary school and high school, all of which will open on Terry Road, Box Hill on Day 1 Term 1 2028.

In the meantime, Box Hill Public School and Box Hill High School are operating out of temporary facilities on George Street, Box Hill.

Works to install new electrical substation for the temporary schools

Next week, we will start works to install an electrical substation and underground electrical cables to provide power from the electricity network to the temporary school facilities. This will replace the generators that are currently in use.

The new substation will be built just inside the temporary high school's grounds near the fence, with a small part of it on the verge along Castilian Street.

This work will start from Tuesday 10 March 2026 and will take approximately 6 weeks to complete.

In the April school holidays, we will be connecting the schools into the new substation, this will involve some temporary disruption to power to the school and local area.

You will receive a letter from Endeavour Energy who will confirm the time and details of the outage.

What to expect during this work

- Excavating inside the school grounds near the staff car park and in the grass verge on Castilian Street to install the new substation.
- Temporarily removing a section of the school fence to allow the substation to be built. Once the substation is in place, the fence will be put back and will surround the new substation.
- Excavating inside the school grounds to connect the new cables from the substation into the school switch board.
- A section of the footpath on Castilian Street will be closed to pedestrians during the work for the safety of the community.
- Traffic control will be in place to guide pedestrians around the work area.
- Entry to Box Hill Public School will be via George Street as normal.
- There may be some noise and disruption from the machinery however this is expected to be minimal.
- We expect these works to have minimal impact on daily school operations.

Working hours

All works at the site will take place between 7 am and 5 pm Monday to Friday and between 8 am and 1 pm on Saturday. No work will take place on Sundays or public holidays.
