

# Oran Park Public School – Stage 2

Works notification | 30 June 2023

## Project overview

To address the population growth and enrolment demand in the southwest Sydney area, stage 2 of the Oran Park Public School upgrade is now underway. Main construction work for the Stage 2 upgrade began earlier this month.

## Winter school holiday works

During the school holidays, the school carpark will be closed as it will temporarily become part of our construction site. It will be reopened for use when school returns after the holidays. The basketball court will also be closed during the school holidays as access will be temporarily blocked by construction fences. Pedestrian access to the school will continue as usual.

All visitors to the school including parents/carers accessing Out of School Hours Care (OOSCH) will need to park on the street and walk their children to the OOSCH facilities. There will be directional signage in place to guide parents/carers to the OOSCH facilities.

We will also continue our works at South Circuit, which includes boring as well as working with pits and manholes on either side of the road at the pedestrian crossing. We will put in place safety measures during the works, which are planned take place during school holidays to minimise disruption to school operations.

## Management of construction impacts

Work will take place during the usual hours between 7 am and 6 pm from Monday to Friday and between 8 am and 1 pm on Saturday. No work is currently proposed for Sundays or public holidays.

The safety of the school's students, staff and the local community is our highest priority. Thank you for your patience while we deliver this important new school infrastructure.

For more information about the construction of the permanent school at Oran Park Public School visit the project webpage at <https://www.schoolinfrastructure.nsw.gov.au/projects/o/oran-park-public-school-upgrade---stage-2.html>
