## Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2025-26 Budget is delivering \$2.1 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

## Project overview

A project is underway to upgrade the school facilities at Orana Heights Public School and remove demountables. Key upgrades will include:

- 8 new classrooms
- refurbishment of 14 classrooms and 4 special programs rooms
- school hall extension
- upgrading the library
- external upgrades including new signage and covered walkways

## Progress summary

We are currently in the process of evaluating tender submissions. The main works construction contractor is expected to be selected in the coming weeks.

## Next steps

- 5 demountables are expected to be relocated during the July school holidays to allow for site establishment. We will provide more details before this work starts.
- Once appointed, the contractor will finalise the design for construction purposes and the statutory planning application will be submitted for approval.
- Construction is expected to begin in late 2025.

## More information

You can find more information about the project at [edu.nsw.link/OHPS\\_Upgrade](https://edu.nsw.link/OHPS_Upgrade). If you have any questions about this project, you can contact School Infrastructure during business hours on the contact details below.
