Masterplan update

2022 to 2024

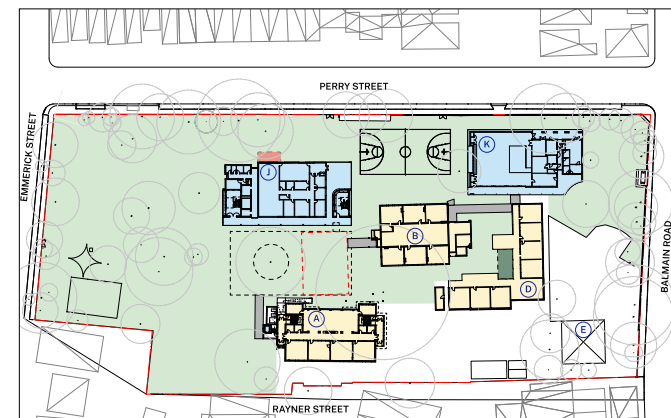

2022

New administration, staff, hall and classrooms.
Two new buildings on western side of site.
Existing buildings remain in current state.

2023

Response to P&C for western side of the site to remain as open space.
Building J reduced in size, containing classrooms only.
Administration and staff located in new Building L.
Heritage Buildings A and D upgraded for classrooms
Heritage Building B adapted for library and classrooms.

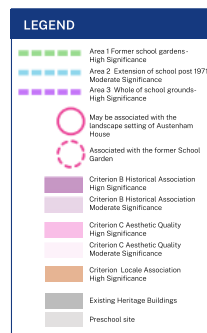

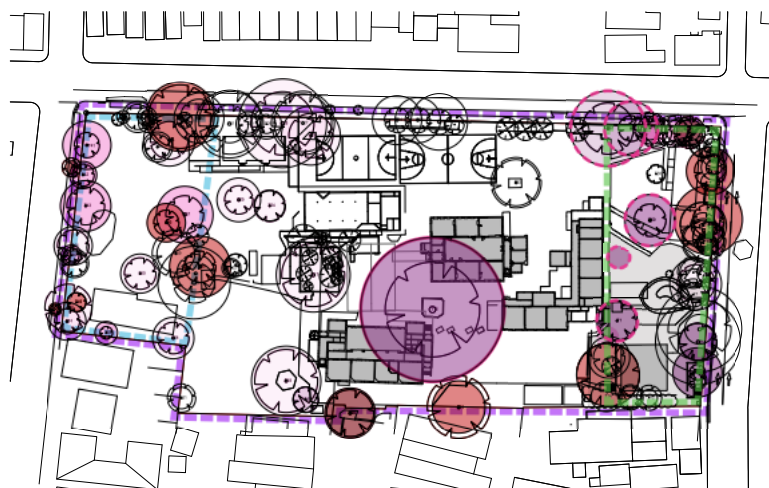

2023 - 2024

Response to P&C for western side of the site to remain as open space.
Cultural landscape assessment and peer review of heritage assessment of buildings undertaken.
Whole of site redevelopment.
Heritage Buildings A and D upgraded for classrooms.
Heritage Building B adapted for library and special programs.
New Building J for administration, staff and 8 new classrooms.
New Building K for hall, OSCH and canteen.
New COLA between Buildings J and A and B.
Reinterpretation of agricultural gardens to east of Buildings K and D.

Sustainable design

The Orange Grove Public School upgrade sustainability plan is being developed and will aim to target a five green star rating from the Green Building Council Australia. This rating system sets the standard for healthy, resilient, positive buildings and places.

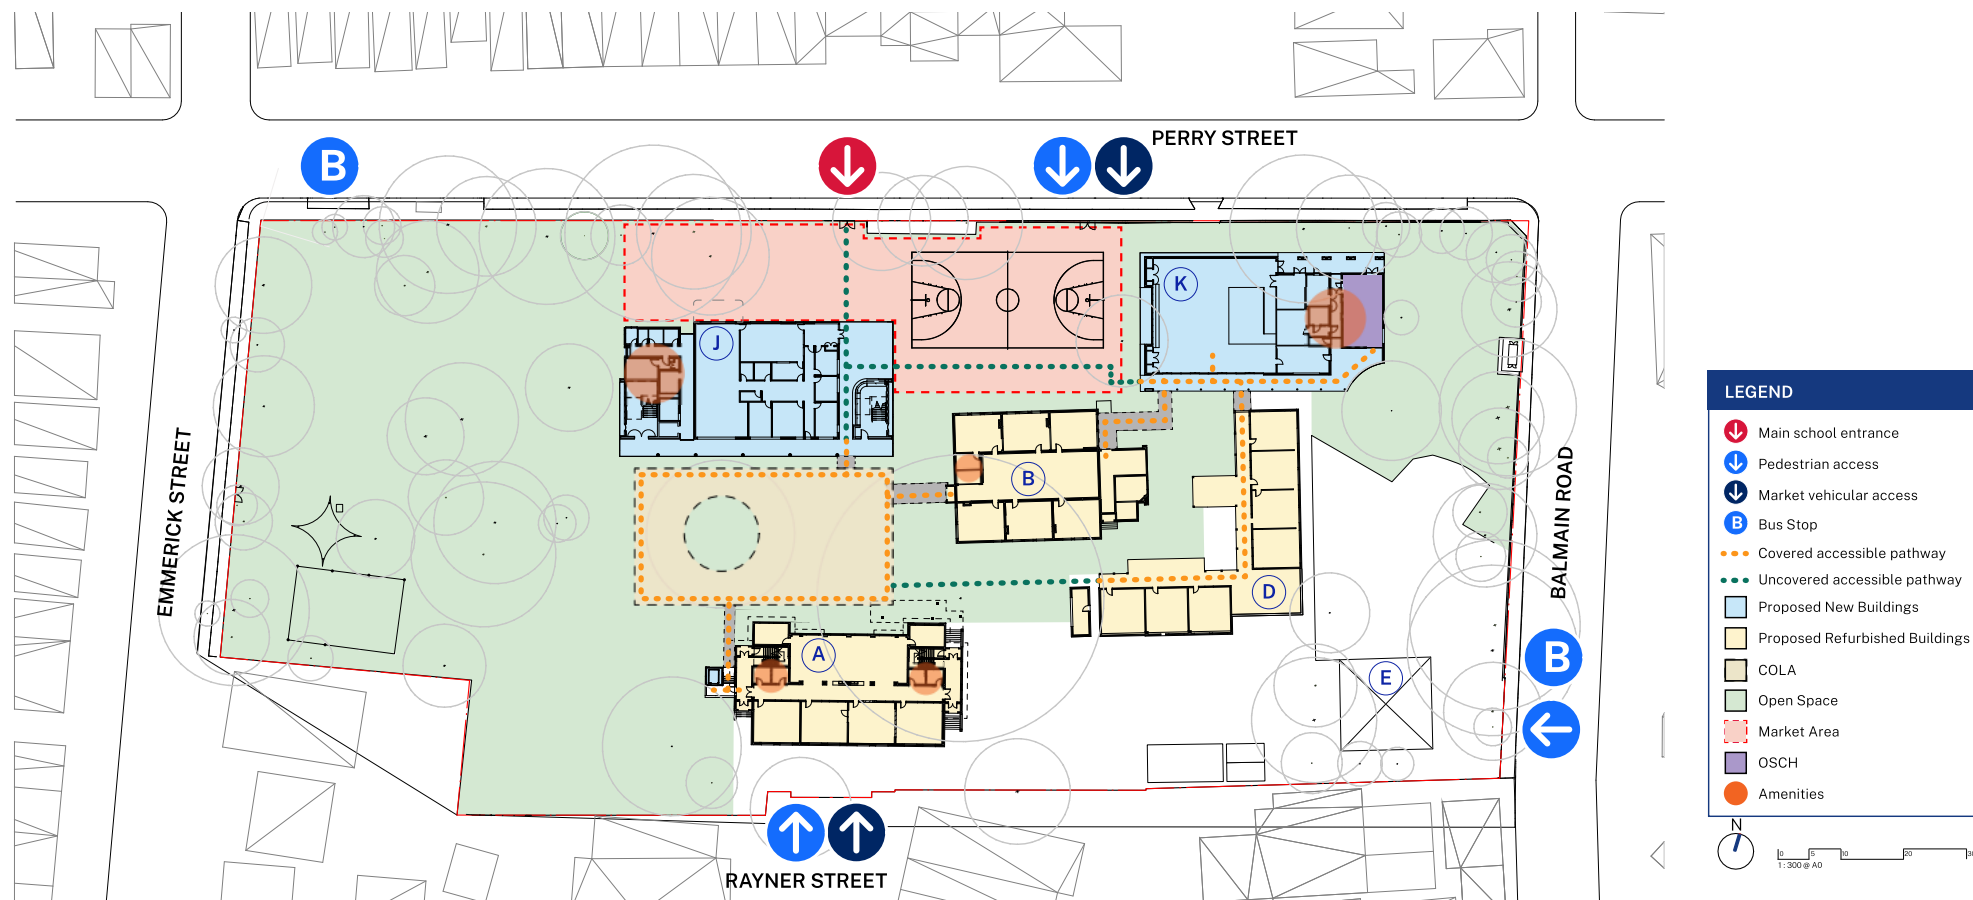

For the Orange Grove Public School an early example of what this could look like is shown in the diagram. These are subject to change as we continue the design and planning of the upgrades.
