## Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world-class public education.

The NSW Government has also invested \$769 million to deliver 100 new public preschools, including building a new preschool at every new government primary school in NSW, to boost access to preschool across the state.

## Project overview

Planning is underway to upgrade the school facilities at Parkview Public School and remove demountables. Key upgrades will include new classrooms, classroom refurbishments, a new covered outdoor learning area (COLA), and upgrades to walkways, landscaping and amenities.

As part of NSW Government's commitment to deliver expanded access to early childhood education, a new public preschool will also be delivered by 2027, providing 2 classrooms for up to 40 children each day.

## Progress summary

We are pleased to announce that the tender for the construction contract has been released and we expect to award the contract in mid 2025.

Work is continuing on the design and location for the new preschool.

## Next steps

- Complete the tender process and award the construction contract.
- Finalise the location of the preschool building.
