Parramatta Public School Redevelopment

Project update

August 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Parramatta Public School Project

The redevelopment of the existing Parramatta Public School is nearing completion.

The project will:

- Accommodate up to 1,000 students
- Incorporate 40 permanent, flexible learning spaces and support areas
- Include technology-rich learning spaces, with an emphasis on mobility and flexibility, and
- Deliver modern indoor and outdoor landscaped spaces.

Project update

Parramatta Public School is currently in its final construction phase, with structure completed as internal and external works are ongoing.

The department will ensure care will be taken to minimise noise and disruption to the surrounding community. Traffic control and security measures will be in place where required for the safety of students, staff and the community. Construction will continue to take place Monday to Friday, 7am to 5pm and Saturdays, 7am to 3pm. No work will take place on Sundays or public holidays.

Parramatta Public School remains on schedule for completion and will be operational for Day 1, Term 1, 2020.

The department will continue to update the community on this exciting project through project updates, information drop-in sessions and the website. We will hold information sessions at the existing school late in Term 4, 2019.
