

This is an example of a school for specific purposes we have delivered for students in NSW

Passfield Park School for Specific Purposes

Project update

April 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Passfield Park School for Specific Purposes

A project is underway to redevelop Passfield Park School for Specific Purposes. The vision for the school is to create a new environment that strengthens communication and a greater sense of wellbeing by providing active and passive recreational facilities for all.

The project is being fast tracked to meet the requirements of the school and the community. The project will deliver:

- 16 new permanent teaching spaces
- A new library and a hall
- A new entrance and drop off area for parents/ carers and students

- New modern core facilities including staff and administration areas
- A new covered outdoor learning area
- A new hydrotherapy pool

Progress Summary

The consultant team has been appointed and the concept master plan has been developed. The schematic design is being developed with feedback from, and in consultation with, the school community. A tender package is also being prepared for the main construction tender.

Next steps

- Finalise schematic design.
- Request for tender (RFT) for main construction contractor.
- Award main construction contractor.
- Commence construction works late 2020 pending planning approval.

Project timeline

The below timeline takes you on the journey of upgrading or building a new school.

Keeping you informed

The health and safety of students, staff and community is our priority. We are temporarily changing some of the ways we keep you informed about our project in your community to account for social distancing measures.

To share your feedback or enquire about this project, please contact School Infrastructure NSW:

Phone: 1300 482 651

Email: schoolinfrastructure@det.nsw.edu.au

Website: www.schoolinfrastructure.nsw.gov.au

Your feedback is important to us. We are committed to working together with our school communities and stakeholders to deliver the best possible learning facilities for students.

Frequently asked questions

Will the school be relocated during the rebuild?

No. The school will be kept operational on the existing site and will move when the new school is ready to open.

Will the development be staged?

No. The current scope of works will be completed in one stage.

How long will construction take?

We anticipate that the redevelopment will take approximately 12 months from commencement of construction.
