

# Picnic Point High School upgrade

Project update

July 2022

## Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Progress summary

Works to refurbish the interiors of the administration building are now complete and the staff have moved into the new facilities. With this building now in use, the demountable administration office on Kennedy Street has been closed and will be removed in the coming months. *Please see the photography overleaf of the interiors of the new building.*

## Construction works progress

Works are progressing on the new Technical Applied Science building. The foundations are in place and the first floors and stairs are currently being built. Over the coming weeks our contractor will:

- install the external wall panels on the ground floor and level one
- form and pour concrete for the suspended slab on level 1
- install roof cladding units
- start installing internal building services.

Works to refurbish the classrooms in Blocks A and B will also start in the coming weeks.

Construction work hours are 7 am to 5 pm Monday to Saturday. No work will take place on Sundays or public holidays unless otherwise notified.
