

Picnic Point High School

Works notification

May 2022

Dear neighbours, parents and carers,

Works are progressing on the new Technical Applied Science (TAS) building and next week we will be pouring concrete for the building's structural slab.

The concrete pour will require us to work up until 8pm on one evening during the week commencing 9 May 2022. In the event of poor weather these works will be rescheduled to the following week.

This work will also involve the use of flood lights near the location of the new TAS building for the safety of on-site staff. As the lights will be visible from adjoining properties on Stretham Avenue, we will do all we can to complete the work quickly to minimise disruption.

School Infrastructure NSW thanks you for accommodating this out of hours work.

Construction contacts

If you have any queries or concerns about this work, you can contact School Infrastructure NSW during business hours on 1300 482 651 or email schoolinfrastructure@det.nsw.edu.au.

For any urgent queries or concerns while this work is being carried out, please contact Site Manager Matei Knap, Quasar Constructions on 0403 740 135.
