

Porters Creek Public School

Works notification

September 2021

A project is underway to build a new primary school in Warnervale, Porters Creek Public School.

Warnervale road and services infrastructure works

Further to our notification on 26 July 2021, we advised that as part of the construction of the new school we are undertaking a package of works to upgrade Warnervale Road and services infrastructure to meet school safety, traffic and infrastructure requirements.

The second phase of the works will be carried out from 6 September until 15 October 2021, weather permitting. The works will be carried out along Warnervale Road (see map overleaf) and will include:

- removal of the existing watermain and installation of a new water main along the southern side of Warnervale Road. This will involve minor disruption of water services during the transition to the new main, impacted properties will be contacted separately closer to the date
- sewer and stormwater upgrades, including excavation of a new sewer main. There will be no disruption to these services during the works
- widening of the southern side of Warnervale Road, this includes levelling out sections of road and resurfacing with asphalt
- construction of a new roundabout at the north-west corner of the school site (see map overleaf).

Works will include intermittent periods of high noise during excavation works.

Traffic and pedestrian access changes

A 30-metre section of existing footpath on the southern side of Warnervale Road will be temporarily removed to facilitate these works. A temporary pedestrian diversion path will be in place. The footpath will be reinstated once works are finished.

Vehicle access will be maintained at all times during these works. Traffic management will be in place to ensure safe access for pedestrians around the work site.

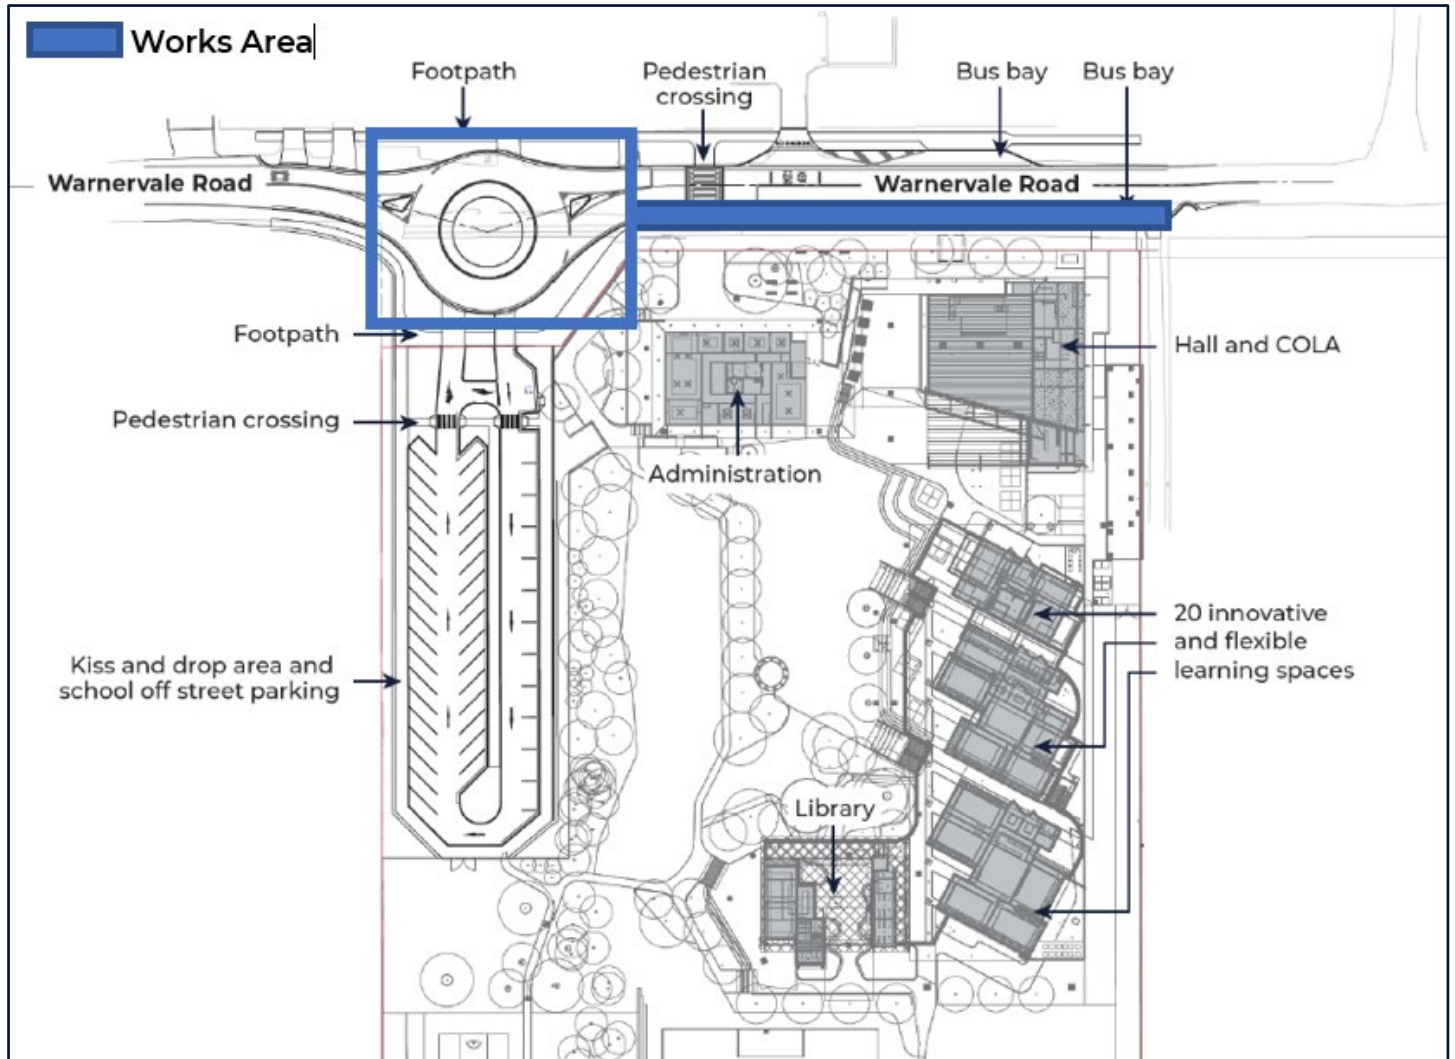

Construction hours

The NSW Government has recently passed legislation to allow construction hours to be extended outside of those specified in the Environmental Planning and Assessment Act (1979) under the *COVID-19 Development-Construction Work Days Order (No 3) 2021* to protect the health, safety and welfare of construction workers and our community during the COVID-19 pandemic.

Construction hours are from 7 am to 6 pm Monday to Sunday and on public holidays. Work completed on Sundays and public holidays is restricted to certain activities to minimise noise and impact to the community.
