

Cecil Hills High School

Welcome Pack – October 2025

New school building

Welcome to your upgraded school

We are excited that the new classroom building at Cecil Hills High School is now open and ready for students and staff to teach, learn and thrive in. In addition, the upgraded canteen, multipurpose hall, and public domain works have been delivered, offering enhanced spaces that will benefit the entire school community.

The new facilities include:

46 modern flexible classrooms

4 dedicated STEM learning spaces

New multi-sports court

Seasonal covered walkway

Improved landscaping

Work will continue on the new outdoor workshop. This work is expected to be completed in early 2026.

Thank you for your patience during construction.

We are thrilled to deliver this project for the school community.

Message from your Principal

It is with great pride and excitement that I welcome you to this important new chapter in the story of Cecil Hills High School. Today marks a significant milestone as we officially open our brand-new multi-storey classroom building for the start of Term 4. This achievement reflects our school's growth and our shared commitment to providing the very best opportunities for our students.

This new facility has been purpose-built to deliver flexible, future-focused learning spaces, including specialist rooms with a strong focus on science, technology, engineering, and mathematics (STEM). These classrooms are designed to encourage collaboration, creativity, and hands-on learning, preparing our students with the skills and confidence they need for success in a rapidly changing world.

The new building forms part of a broader program of upgrades that will continue to transform our school. These works include the extension and refurbishment of our existing hall into a true multipurpose space, an expanded canteen, new staff facilities, a dedicated outdoor workshop, new covered walkways, and accessibility improvements across the site. Every element of this project has been carefully planned with the needs of our students and community at the forefront.

This transformation reflects our commitment not only to academic excellence but also to building an inclusive and supportive environment for all. The upgrades will ensure that Cecil Hills High School remains a place where students are inspired, challenged, and empowered to achieve their best.

I want to sincerely thank our staff, students, families, and the wider community for their patience and support throughout this journey. Your commitment and resilience have helped us reach this moment, and together we can now look forward to the many opportunities these new facilities will bring. I warmly invite you to explore our new spaces and join us in celebrating this exciting new era for Cecil Hills High School.

Andrew King
School Principal
Cecil Hills High School

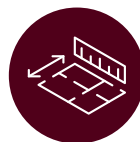

Site plan

Did you know?

34 trees planted

40,000 bricks laid

7,200 tonnes of concrete poured = 3 Olympic swimming pools. All concrete comes from a local supplier, only 7.2 km away
