100 new public preschools

As part of the plan to rebuild public education, the NSW Government is investing \$769 million to deliver 100 new public preschools, co-located with public primary schools in NSW, to boost access to public preschool across the state. This is the largest investment in public preschools in NSW history, helping more children access a high-quality preschool program before starting school.

Project overview

Work is underway to deliver a new public preschool at Prairievale Public School. The new public preschool will provide quality, play-based, intentional educational learning programs guided by the Early Years Learning Framework in a safe and engaging environment for preschool children. The construction of the preschool is expected to be completed in time for Day 1 Term 1 2027 to accommodate up to 40 children per day and will include:

- 2 preschool rooms
- an outside play area
- administration area, amenities, staff kitchen and storage.

Progress summary

We have been working with the construction contractor to finalise the design of the new preschool and have started developing a construction program for the project.

The statutory planning documentation to build the new public preschool at Prairievale Public School is awaiting approval. Once we receive planning approval, we will finalise the construction program and begin preparing for the construction work.

Next steps

- Complete the detailed design of the new public preschool.
- Receive development consent.
- Finalise construction program.
- Establish construction site and begin construction.
