

Queanbeyan High School

Information pack

October 2019

Artist impression of the refurbished learning spaces in Building A

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW.

In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

A project is underway to upgrade Queanbeyan High School. The project will deliver:

eight refurbished
general learning
spaces

two learning
spaces devoted
to STEM

landscape
improvement
works

refurbishment and
expansion of administration
and staff facilities

covered outdoor learning
areas (COLA) and resurfacing
of the sports courts

upgrade of
school entry
area and gates

new
walkways
and ramps

expansion and new fit-out
of food technology and
hospitality facilities

Delivery this year

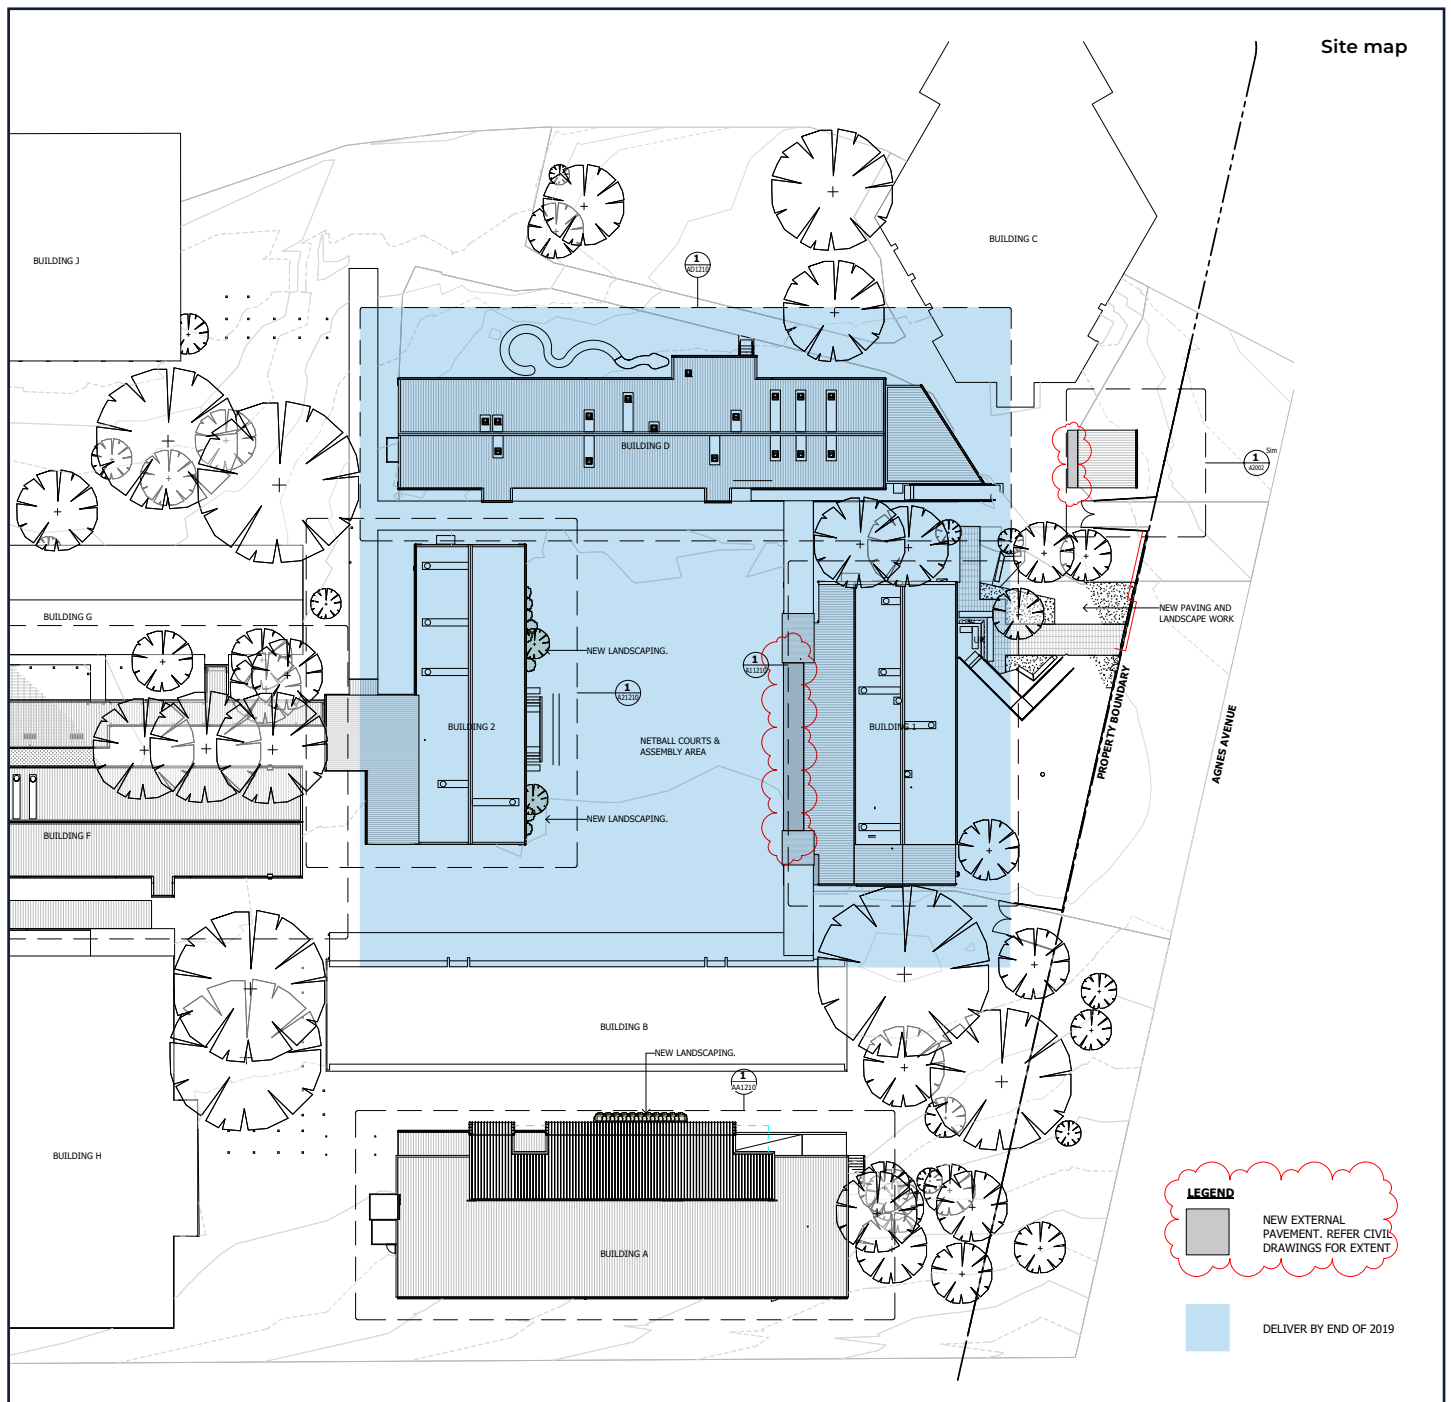

Some of the upgrade will be delivered for the school later in Term 4. This includes:

- Building 1 (administration refurbishment)
- Building 2 (staff facilities)
- Building D (food technology and hospitality facilities)
- Landscaping, walkways and ramps around these three buildings
- Bus Shelter

The site plan below represents the upgrade and the blue shaded component are the works being delivered by the end of this year.

Where will administration services be accessed from?

Later in December, administration services will be accessed from Building 1. Access to the new admin building for everyone will be from the quad-facing entry at the rear of the building until the access ramp and entry refurbishment works can be completed over the January school holidays.

What works will remain in 2020?

Over Term 1 and 2, 2020, works will continue on the following:

- Building A and Building F (refurbished general learning spaces and STEM spaces)
- COLA
- Resurfacing of sports courts.

Do the new facilities have air-conditioning?

All refurbished and new spaces at Queanbeyan High School will be air-conditioned. There are solar panels installed which offset some of the energy required for the air-conditioning.

What will the new general learning spaces look like?

The new learning spaces are designed to facilitate innovative learning. Innovative learning spaces are designed to be flexible and well-resourced so that teachers can design a wide range of learning activities to develop the skills and knowledge of students.
