

Randwick Girls High School

Holidays works notification | April 2023

School Infrastructure NSW is continuing works to upgrade Randwick Boys High School and Randwick Girls High School to provide modern facilities and improve educational outcomes for the school community.

Over the Term 1 school holidays, we will be continuing work on the upgrades at Randwick Girls High School, as well as doing planned maintenance. The school holidays are the ideal time for some maintenance projects as it means work can take place without disrupting learning.

Demolition work starting in Building A

We will start work to demolish and refurbish the two existing food technology classrooms on the top floor of Building A (see map overleaf) and convert two existing storerooms on the top floor of Building A into a new staffroom. The existing staff room will form part of the extension of the food technology classrooms.

The new staffroom will be open for use when Term 2 resumes.

Work will continue to fit out the food technology rooms during Term 2. The rest of the top floor of Building A and all the Technology and Applied Sciences (TAS) facilities on the other two levels will continue to be used, accessed normally via the school quad.

Resurfacing the school quadrangle

Over the school holidays, work will start to resurface the school quad. The site fencing will be installed in the last week of Term 1 (see map overleaf).

Starting from 11 April, the existing quad will be demolished. This will involve the use of heavy vehicles and machinery including jackhammers. During work, contractors will access the site via Avoca Street.

Noisy works are expected to be completed during the holidays, and all works finished by the start of Term 2.

Managing construction impacts

Work has been carefully planned to minimise disruption to the school and local community.

Work hours are Monday to Saturday between 7 am and 5 pm. There will be no works taking place on Sundays and public holidays.

During these hours contractors will ensure noise on site is managed in accordance with local residential noise regulations.

For more information on how construction impacts are managed, please visit our website: edu.nsw.link/ConstructionImpacts

Update on the Share Our Space Program

Due to the work activities taking place on site, the Share Our Space Program will not run at Randwick Girls High School during the Term 1 School holidays.

Keeping you informed

We will continue to share updates with the community. For more information about the Randwick Boys High School and Randwick Girls High School upgrades, please visit the project webpage on edu.nsw.link/RBHS-RGHS

For any questions or feedback related to the upgrades, please contact us on the details below.

Site plan

LEGEND

- A1** Completed new woodwork learning facility
- A2** Upgrades to food technology facilities on top floor (location of site shed in the undercroft)
- Temporary fencing for concrete works to resurface school quad
- Location of site shed for school quad concrete works
- Location of site shed for food technology facilities upgrades
- ↑ Access to school site via Avoca Street
