Design image of the new pavilion building (subject to change)

Ryde Secondary College
Project update | August 2023

Project overview

A project is underway to provide Ryde Secondary College with new and upgraded learning spaces to accommodate increasing enrolments at the school.

The project will deliver a new two-storey pavilion building with airconditioned classrooms, indoor fitness training space, seminar spaces and staff facilities.

In addition to the pavilion, planning is underway for more upgrades to improve the school's facilities and functionality.

This project is part of the broader strategy to cater for predicted enrolment growth in the Ryde area. Other school infrastructure projects in the area include the Macquarie Park Education Campus and Midtown Macquarie Park new primary school.

Progress summary

We are pleased to announce that work on the pavilion building is coming to an end. We have finished all the external works, including extending the sport oval, and are finishing the internal works.

We expect the pavilion to be finished and handed over to the school on Friday 18 August 2023.

We have also finished work on the school's 3 new covered outdoor learning areas (COLAs). These are all being used by the school.

Next steps

We will support staff to move into the pavilion from Monday 21 August 2023. The school will start using their new spaces later that week.

See the next page for a site plan of the school that shows the location of the pavilion and the new COLAs.
