

An example of an innovative learning space we are delivering for students across NSW

## Next steps

Works are anticipated to start in late April 2020, starting with site establishment and followed by earthworks and construction of the new three storey building along Ridgecrop Drive.

## For more information

We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students. We encourage feedback from the school and local community about the new Samuel Gilbert Public School project.

# Samuel Gilbert Public School

Information pack

March 2020

Artist impression of the Samuel Gilbert Public School

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

A project is planned to upgrade Samuel Gilbert Public School. The upgrade includes a new three storey building and alterations to existing buildings to deliver:

**25** additional new permanent learning spaces

A new library

A new hall (with separate access for community use)

New staff and administration facilities

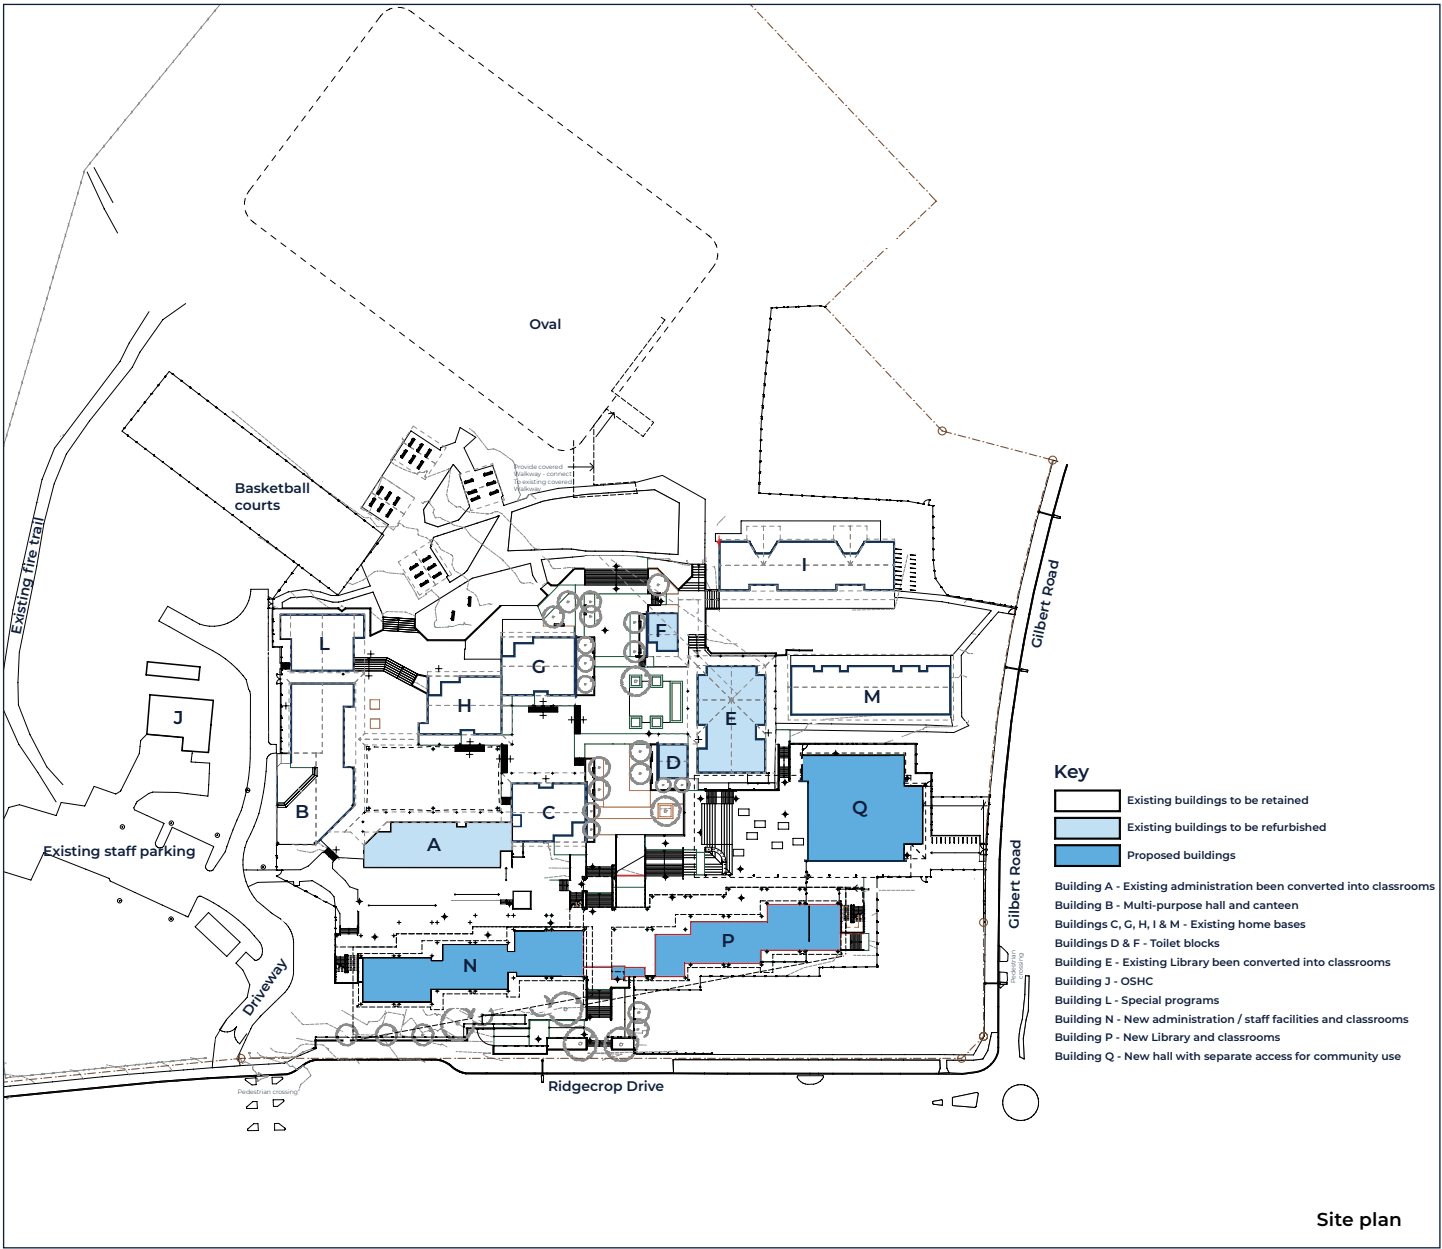

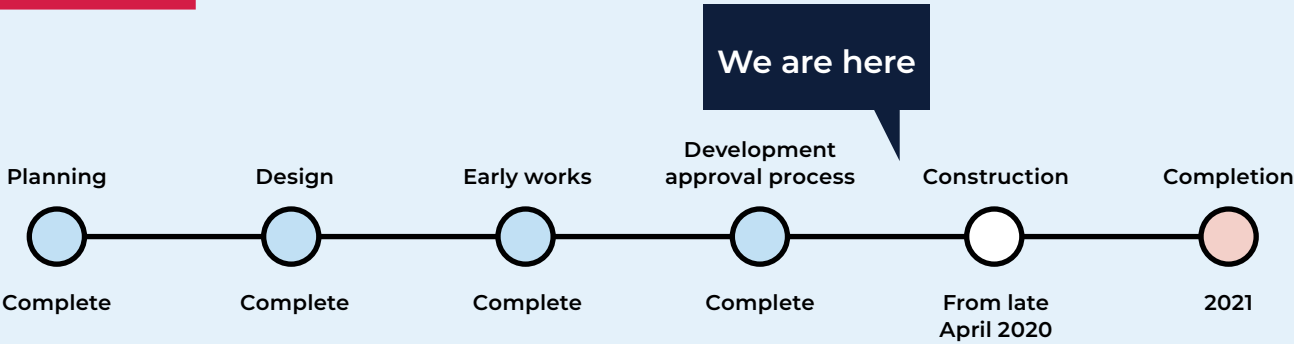

# Progress summary

The State Significant Development application has been approved by the Department of Planning, Industry and Environment. The construction contract has been awarded to Hutchinson Builders.

Site establishment works to prepare the site for construction started in February 2020.

## Timeline

# Frequently asked questions

## What is being delivered at the school?

A project is planned to upgrade Samuel Gilbert Public School.

The upgrade includes a new three storey building and alterations to existing buildings to deliver:

- 25 additional new permanent learning spaces
- a new library
- a new hall (with separate access for community use)
- new staff and administration facilities.

The project will also result in the removal of demountables, the creation of a new entry and a connection to the existing campus.

## When was consent granted for the project?

The Department of Planning, Industry and Environment granted consent on 15 February 2020. You can find more information about the State Significant Development process at <https://www.planning.nsw.gov.au/State-Significant-Development>.

## What construction activities will take place?

Construction works have been approved to occur between 7:00am and 6:00pm, Monday to Friday and 8:00am to 1:00pm, Saturday. No work will take place on Sundays or public holidays.

## What is being done to manage construction traffic?

Traffic controllers will be used to manage construction vehicles entering and exiting the site including controlling pedestrian movement during morning and peak periods. All construction vehicles will be parked within the school grounds, per the conditions of consent for the project.

## Will you replace the trees that will be removed as part of the project?

A number of trees will be removed from the project site. The project's consent conditions outline the protection measures that will be put in place to protect fauna and surrounding vegetation. Extensive landscaping and tree planting will be undertaken at the completion of the project.

## How can I find out what is happening as the project progresses?

We are committed to working together with the school community, local residents, and stakeholders to deliver the best possible learning facilities for students. We will continue to provide information through information drop-ins, project updates, work notifications, our project webpage, and school newsletters.
