

Schofields Public School

Works notification | 10 July 2026

Possible asbestos remediation

From **Monday 13 July 2026**, for a period of approximately 6 weeks, we will be excavating a section of the Schofields Public School grounds.

If asbestos-containing material (ACM) is found during excavation, it will be remediated in accordance with work health and safety laws and the site-specific Asbestos Management Plan. Safety measures, including air monitoring, will be in place throughout and all work will be completed by licensed asbestos contractors.

The area is fenced and inaccessible to school community and public.

Once excavation is complete, the area will be inspected by the independent hygienist, and a clearance certificate will be issued. The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

For more information about asbestos, visit the NSW Health website:
