SMALLS ROAD PUBLIC SCHOOL, RYDE (SSDA8372)

PRINCIPAL CONTRACTOR CERTIFICATION

Richard Crookes Constructions Pty Ltd (RCC) were the Principal Contractor appointed to construction the Smalls Road Public School (SSDA8372) at 3B Smalls Road Ryde and hereby provide the following certification of the works;

1. SCP Consulting Pty Ltd were engaged to complete the Structural Design and Certification. SCP Consulting has completed progress inspections throughout the project duration and have issued inspection reports at the time of these inspections.

RCC hereby certify that the matters identified in the SCP inspection reports have been rectified and/or completed to the satisfaction of SCP and noting that SCP did not inspect all parts of the building, that RCC and their subcontractors have completed the structural works in accordance with the requirements of SCP's documented structural design.

2. RCC hereby certify that the precast columns manufactured and supplied by Rocla have been installed in accordance with the structural design.
3. BCA Logic Pty Ltd were engaged to complete inspections of the passive fire stopping throughout the project. BCA Logic has completed progress inspections throughout the project duration and have provided a final report (noting this includes references to the sub-contractor's specific schedules). Noting that BCA Logic have stated they have not inspected all fire stopping systems installed in the building, RCC hereby confirm that 'any fire stopping of service penetrations within the development that may not be explicitly captured within BCA Logics Final Penetration Report & Schedule and the associated sub-contractor's fire stopping schedules have been completed by appropriately qualified persons in accordance with the requirements of BCA C3.15, Specification C3.15 (where applicable), and the requirements of the relevant test report associated with the fire stopping product in use' at the time of these inspections.
