St Ives High School

Summer holidays construction works

December 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

St Ives High School

An upgrade is underway for St Ives High School. The project includes construction of a new multi-use indoor sports centre and refurbishing of the technical and applied studies facilities (Block C).

Progress summary

The Development Application for the new indoor sports centre has been approved by Ku-ring-gai Council.

Site establishment work is complete and main construction works are expected to start shortly.

Summer works

During the summer break, works will continue with the relocation and extension of all in-ground services, ground works including excavation and slab structural works, and an upgrade of the school's existing wireless access points (WAP) to enable a seamless WIFI connection upon completion of the new sports centre.

We are here to make sure that work is completed safely and efficiently and ensure that disruptions to the community are minimised.

We thank you for your patience during these works and are thrilled to be delivering this project for the school community.

Frequently asked questions

What works will be completed over the holidays?

Relocation and extension of all in-ground services.

Ground works including excavation and below slab structural works.

Upgrade of the school's existing wireless access points (WAP) to enable a seamless WIFI connection upon completion of the Sports Centre.

What are the construction working hours?

All works are to be completed within the Development Application hours: Monday to Friday 7:00am to 5:00pm and Saturday 8:00am to 3:00pm.

No works will take place on public holidays or Sundays.

Will construction take place over Christmas and New Year?

There will be no works onsite between 21 December 2019 and 5 January 2020.

What safety measures will be in place?

The site has safety management plans that will be strictly adhered to. Regular inspections will continue during the holiday period.

What steps will be taken to control noise and dust impacts?

Hoarding and shade cloth will be erected to reduce noise and dust impacts on the school and our neighbours. Dust generated from the construction site will be hosed down as required.

How will traffic be managed?

Traffic control and security measures will be in place where required for the safety of the community.
