

St Ives High School

Main works completion

St Ives High School new sports centre

The main construction works for the upgrade of St Ives High School have now been completed. We have delivered:

a new multi-use indoor sports centre with solar panels and a rainwater tank

2 new learning spaces

a fitness lab

a seminar room

refurbished technical and applied studies (TAS) facilities

Thank you for your patience during construction, we are thrilled to deliver this project for your school community and hope you enjoy your new spaces.

Main construction works completed

Main construction works for the St Ives High School upgrade have now been completed. We have delivered a new multi-use indoor sports centre, two new learning spaces, a fitness lab, a seminar room, and refurbished technical and applied studies (TAS) facilities.

Following the demolition of the school's existing gymnasium during the summer holidays, some minor finishing works will take place in Term 1 2021 with minimal impact on the operation of the school.

Contact us

For more information about this project contact School Infrastructure NSW:

Website: schoolinfrastructure.nsw.gov.au

Email: schoolinfrastructure@det.nsw.edu.au

Phone: 1300 482 651

This includes landscaping, reinstatement of the car park, and the construction of a new external basketball court.

Hoarding and fencing will be in place where required to separate work areas from the operation of the school site and ensure the safety of staff and students.

Thank you

Thank you for your patience as we deliver this upgrade to the school.

Your support and cooperation has made it possible for us to deliver these new facilities for the students and staff of St Ives High School.

For information about school activities and operations, contact the school directly:
