

St Ives North Public School

Project update

June 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

St Ives North Public School upgrade

An upgrade is underway at St Ives North Public School. The project will deliver new permanent innovative learning spaces and an upgrade to core facilities.

The school upgrade remains on-track for completion by mid-2020.

Progress summary

The building structure is now complete, and work is progressing on the internal fit-out.

Large materials continue to be delivered via Memorial Avenue. Traffic management will be in place when necessary to secure the safety of pedestrians and vehicles.

Managing the impact of our work

Due to the nature of our work, you may experience increased noise from machinery and other activities. We will ensure that work is completed safely and efficiently, and disruptions are minimised.

Our contractors will ensure their teams comply with social distancing restrictions to ensure a safe workplace.

Thank you for your patience as we deliver this important project for the community.
