Stanwell Park Public School

Project update

April 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

An upgrade is underway for a new hall at Stanwell Park Public School.

School hall to include a canteen, out of school hours care facilities and storage.

Progress summary

- Tenders have been received for the design and construct contract, and are being assessed.
- The schematic designs have been finalised.
- The Development Application for works to build the new hall has been lodged with Wollongong City Council.

Next steps

The Development Application has been lodged with Wollongong Council. The application can be viewed and community can provide a submission during the public exhibition period.

www.wollongong.nsw.gov.au/development/view-an-application

Preparation of the site may start soon after award of the construction contract. The main construction work will start after planning approval is granted.

The Department of Education is committed to ensuring that work is completed safely and efficiently and with minimal impact to the local community.

Thank you for your cooperation during this important work.

Location of new school hall

Frequently asked questions

When will the school hall be complete?

The school hall is planned to be ready for Day One, Term One, 2022.

Where will be the Location of the new school Hall?

The new school hall will sit at the end of the existing sport court, and adjacent to the playing field.

How large is the School Hall?

The proposed hall provides a simple but functional design. It is 5m tall and will be built across approx. 355sqm.

What steps will be taken to control noise and dust impacts during construction?

Noise will be kept to a minimum as best as possible during the works.

Noise levels on site will be managed in accordance with the noise control guidelines that are outlined in the EPA Environmental Noise Control Manual for construction and demolition works.

Dust from construction works will be hosed down as required.

How will traffic be managed?

Traffic management will be in place where required for the safety of students, staff, the local community and workers. Traffic controllers will be used where required to manage entry and exit of vehicles to and from the construction site. Vehicles will give way to pedestrians at all times.

What safety measures are in place?

The health and safety of the community is our highest priority. Temporary fencing will be erected around the construction site to secure the area and prevent public access.

All work will be undertaken in accordance with SafeWork NSW regulation. The site will be continually monitored during the project to ensure the equipment is safely stored and the site is secure.

Can I provide feedback on the Development Application?

The Development Application for the new hall at Stanwell Park Public School will be available to view through the Wollongong Council webpage. You can comment on the application by providing a submission to council while it is on public exhibition.

Artist impression of inside the hall

At the NSW Department of Education, we recognise the traditional custodians of the lands and waterways where we work and live. We celebrate the First Peoples' unique cultural and spiritual relationship to Country and acknowledge the significance of Aboriginal cultures in Australia.
