

Planning for Sydney Olympic Park new high school

Planning update

November 2020

Process timeline

Delivering a new high school at Sydney Olympic Park

We are currently undertaking planning work for a new high school in the Sydney Olympic Park area with a site identified at Wentworth Point. This process includes development of a master plan and concept design.

In addition to flexible learning and teaching spaces, a new school may also include:

- covered outdoor learning area (COLA)
- library
- green space
- administrative facilities.

Progress summary

We are in the master planning phase and are currently assessing the spatial and community requirements for the school.

Master planning considers options for the general size, shape and form of buildings for a specific school site. A series of masterplan options are considered along with the educational concept and design for the school.

A suitable site has been identified on Burroway Road Wentworth Point, adjacent to Wentworth Point Public School.

How can I get involved?

We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students.

Your feedback on this project is important to us. For more information, questions or to make a comment please email us at schoolinfrastructure@det.nsw.edu.au.

Changing the way we communicate

The health and safety of our students, staff and community are our priority.

We are temporarily changing some of the ways we keep you informed about our project in your community to account for social distancing measures.

How we will keep you informed on the new high school

Until further notice we will share information with our communities online instead of in person.

Our information hotline and email address will continue to operate as normal.

How can I stay informed about other plans for the Burroway Road Wentworth Point Precinct?

Transport for NSW (TfNSW) is currently revising its plans for the Burroway Road Wentworth Point Precinct. If you wish to receive project updates from TfNSW, contact 1800 684 490 or email projects@transport.nsw.gov.au.

Keep in touch

The SINSW website will continue to have up-to-date information about the high school project in your area.

You can also continue to contact us via our community information line and email on the details below.

Planning for Sydney Olympic Park new high school

Funding has been allocated for a new high school in Sydney Olympic Park. The information below takes you through the journey of upgrading or building a new school.

Early planning

- Consideration and studies of demographic trends, education requirements, the condition of the existing school buildings, catchment boundaries, heritage requirements, transport links and partnership opportunities.
- Doing so means that we:
 - consider the needs of the local area now and into the future.
 - ensure the right school is designed for the community.
- An important step before an architect or other contractors are appointed and official community engagement commences.

Planning

- Consultants such as architects and project managers are appointed.
- Investigation and review of site and development of master plan options.
- Master planning considers options for the general size, shape and form of buildings for a specific school site.
- A Project Reference Group (PRG) is established.
- Operational, educational and service delivery factors are understood and considered by the PRG.
 - A series of preliminary master plan options are considered along with the educational concept and design for the school.
 - A preferred concept design option is identified.
 - Once a preferred option is identified approval is needed in order to progress from planning through to project delivery.

Delivery

- The construction works program to deliver the upgrade to the school is developed in collaboration with the school and where appropriate, the local community.
- Ongoing consultation with Principal, staff and other school users.
- Throughout detailed design and construction updates are provided to the local community.

Approvals

- Workshops continue with school and local community to understand challenges and constraints and identify future requirements.
 - Engagement of technical specialists, local councils and other government agencies.
- Statutory planning approval process.
- Opportunity for local community to view and provide feedback upon submission of the Development Application.
- Scope of work and concept design is further defined.
