

# Project overview

A new high school is being developed to cater for the growing population in the Sydney Olympic Park, Wentworth Point and Concord West communities. It will include contemporary and innovative learning environments, initially accommodating more than 800 students.

The school is master planned for future expansion if required.

The new high school will include:

Innovating teaching and learning spaces for more than 800 students

Multi-purpose hall for sports and performance

Outdoor spaces including landscaped recreation areas, playing field and games courts

A library

Canteen facilities

New performing arts spaces

Example of an innovative learning space being delivered across NSW

# The new high school features

The school may be designed up to six storeys to maximise outdoor space, with learning spaces grouped in zones that may focus on curriculum or school stage.

Further details about the high school features facilities will be shared with the community as the project progresses.

# Innovative learning spaces

Contemporary learning and teaching prepares students for a diverse and interconnected world. We are evolving the ways we teach our students new skills valued by a changing workforce, understand different ways students learn and support new ways of interacting with information through technology.

Innovative learning environments are flexible spaces designed and equipped to support contemporary learning and teaching.

## What makes an innovative learning space?

### Learning space

- Different zones (areas of a building or floors) are designed to support a range of activities sometimes grouped by subject area
- Varied furniture allows for student choice, comfort and flexibility
- Spaces are flexibly connected allowing students to work in varied group sizes
- Connection between indoor and outdoor learning spaces

### Organisation

- Movement is encouraged for students and teachers to collaborate and interact
- More than one teacher may be available to students within the learning environment
- Students learn in classes, small groups or individually

### Teaching and learning

- Learning is personalised
- Learning is connected across different subject areas
- There is a focus on creativity and innovation with students prototyping, testing and using technology in creative ways

### Technology

- Technology is integrated into spaces to extend learning opportunities
- WiFi is available everywhere including outdoors
- Specialist equipment is available for students to innovate, communicate and create

# Project timeline

## What's next?

We will continue to work with key stakeholders so that we can deliver high quality education infrastructure for the local community. The next phase of planning aims to further develop the design to confirm the final layout of the school and its facilities.

We look forward to sharing more information with you as the project progresses. In the meantime you can stay informed by regularly visiting the project web page and you can contact us via email or phone if you have any questions or feedback about the new high school.

Stay informed about plans for the Wentworth Point Peninsula, including the Peninsula Park, by contacting Transport for NSW on 1800 684 490 or [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au)
