

Tweed Heads South Public School

Project update | 30 June 2023

Investing in our schools

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

Tweed Heads South Public School is being upgraded to provide new permanent teaching spaces and education facilities. The project will provide 11 new permanent learning spaces, a new library, a more visually appealing and practical street entry, a new canteen, new Out of School Hours Care (OSHC) facilities, a refurbished Early Learning Centre (ELC), administration spaces, and improved playground and outdoor spaces.

Progress Update

The Administration refurbishment will be complete and ready for the school to occupy on Day 1 Term 3, 2023. The new refurbished space presents a bright welcoming feel which includes new offices, sick bay, clerical and print workroom and a new entry and exit to an outdoor area for the staff. The following photos are of the new medical bay and clerical and print workroom.

Building C will be demolished through the school holidays to make way for the new escape stair to building B followed by landscaping to the front of the school.

Next Steps

Construction works will continue to Building 1. The external building is almost completed.

We would like to thank the community for their ongoing understanding and patience while we deliver the Tweed Heads South Public School upgrade.
