

# Tweed Heads South Public School

## Works notification

**6 August 2021**

Dear parents/carers,

Further to our previous notification dated 26 July 2021, during investigative works on the former OSCH building, asbestos containing material was found in the roof cavity and floor tiles. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

Safety measures and monitoring have been put in place to ensure there is no risk to students, staff or the local community. As a precaution, the area has been cordoned off and will remain out of bounds to students and staff until remediation is completed.

This area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is scheduled to be removed from the former OSCH building from Monday 9 August 2021. All asbestos containing material will be removed outside of school hours.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and well-being of the school and the local community is our highest priority and we will continue to keep the community updated.

---
