

# Tweed River High School

## Project update | December 2022

### Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

### Project overview

Tweed River High School is being upgraded to provide new permanent teaching spaces and core facilities, as well as vocational education facilities. The upgrade will provide new and refurbished learning spaces, a new library, a new senior learning environment, a new, larger capacity school support unit, vocational education and training (VET) facilities for construction, hospitality and primary industries, and relocation and enhancement of performing arts facilities and learning spaces.

### Updated completion dates

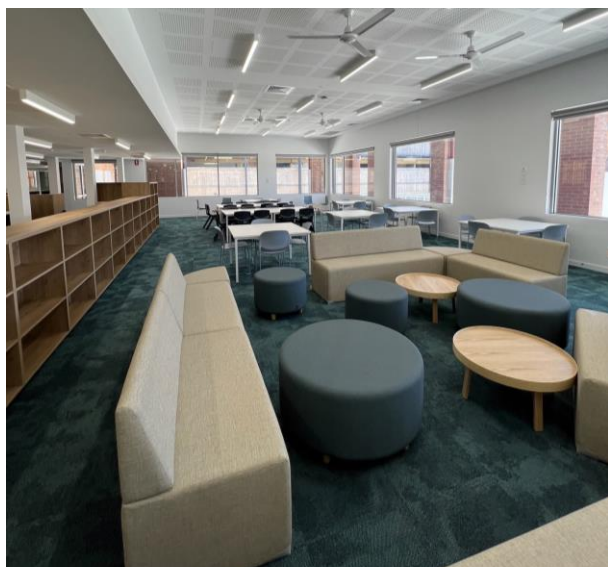

In May 2022, we updated the community that the works to upgrade Tweed River High School have been impacted by the floods in Northern NSW. While the school was not directly impacted by floodwaters, the flooding in Northern NSW had a considerable impact on our work in the region, reducing capacity and increasing demand in the construction industry.

Our contractor has now revised the program of works for the remainder of the upgrade. The updated anticipated completion dates for the buildings / project are outlined on the following page.

Facility	Completion date
Building 1: Technology and Applied Studies and Construction	Early 2024
Building 2: Performing Arts	Early 2024
Building 3: Hospitality and Business Centre	Early 2024
AG: Agriculture	Early 2024
Block F: Library and learning spaces and senior learning area	Early 2023
Block H: Dance	Early 2024

### Progress update

The library, new senior learning space and art rooms have been completed in Block F. We are excited to be handing over these facilities to the school.

*Interior of new library*

*Exterior of new Building F*

### Next steps

Works will continue to finalise the refurbishment of Block F early in the new year. Groundworks for the VET Buildings, including the new Performing Arts, Hospitality, Business, Technology and Agriculture learning spaces, have started, and work will continue on these facilities over the summer break. We thank the community for your ongoing understanding and patience while we deliver the Tweed River High School upgrade.
