

Tweed River High School

Welcome Pack – September 2024

Tweed River High School

Welcome to your upgraded school

We're excited that the new Tweed River High School is now complete and ready for you to use.

Thank you for your patience during construction. We are thrilled to deliver this project for the community.

The new permanent school facilities include:

Technology and applied studies spaces and workshops

Connecting to Country NAIDOC garden

Hospitality and business centre with commercial kitchen

Landscaping, outdoor learning and recreation areas

Performing arts spaces with specialist performance workshop

Agriculture workshop and glass house

New library

Specialised classrooms, seminar rooms and offices

Message from your Principal

I am delighted to share the exciting news that the upgrade project and our new Vocational Education Hub are complete. This significant development marks a pivotal moment in our school's journey, reflecting our ongoing commitment to providing diverse and enriching learning opportunities for our students.

The completion of the Vocational Education Hub underscores our dedication to embracing the NSW Government's Vocational High School Program. This initiative aligns with our vision of expanding educational pathways, fostering resilience, and promoting independence among our students. Our enhanced VET curriculum is designed to cater to the unique strengths and needs of each student, building self-confidence and preparing them for future success.

Our objective is to create a learning environment that supports academic excellence and equips students with practical skills and real-world experiences. We are committed to collaborating with industry partners to ensure that our vocational programs are of the highest quality, reflect the needs of the current job market, and provide valuable, hands-on learning opportunities.

Moreover, the Vocational Education Hub will strengthen our links with the broader community, allowing us to contribute constructively and meaningfully. By working together with both the school and external community, we aim to support each student in achieving their personal goals and aspirations.

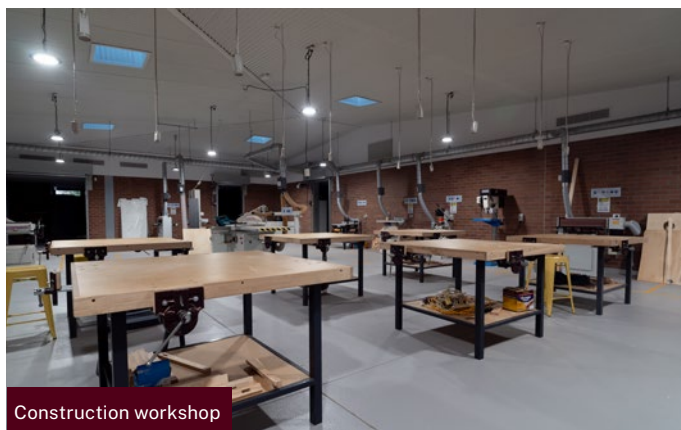

I want to extend my heartfelt thanks to everyone who supported us throughout the building and public domain work. Your dedication and cooperation have been instrumental in bringing this project to fruition.

As we move forward, let us continue to work together to nurture the potential of every student and build a brighter future for all.

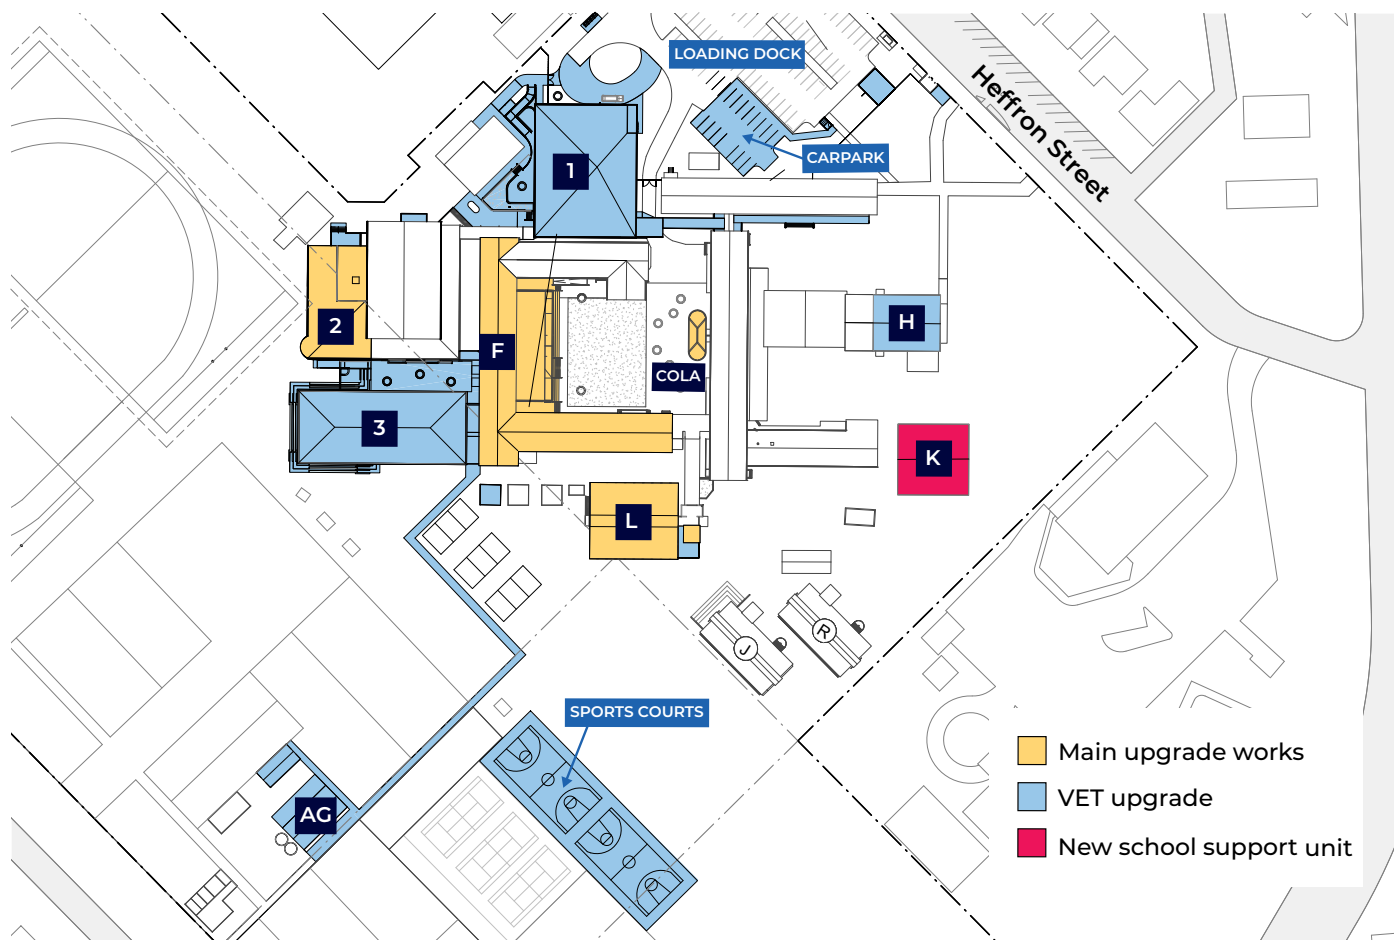

Donna Riley

School Principal

Tweed River High School

New school map

Building 1: Technology and Applied Studies and Construction

- Construction VET workshop
- TAS workshop

- Classrooms and practical activities areas
- Sensory rooms
- Outdoor learning and recreation areas
- Accessible amenities

Block L: Science

- Science classrooms and laboratories

Block H: Dance

- Dance studio

Vocational Education and Training (VET) facilities

The Tweed River High School VET Hub will provide students access to state-of-the-art facilities and a wide range of VET courses. The VET Hub consists of four buildings spread across the campus, each dedicated to different areas of study.

Technology, applied studies and construction

- Construction workshops
- Material store
- Design and planning room
- Loading dock

Performing arts

- Music and performance studios
- Seminar rooms

Hospitality and business

- Commercial kitchen
- Bistro
- Laundry

Agriculture and primary industries

- Proprietary shed
- Workshops
- Glass house

A wide variety of courses will provide innovative curriculum pathways and options as part of a pilot initiative. The initiative offers access to a specialist vocational education and training (VET) facility, which allows students to engage in learning that builds vocational skills and facilitates pathways to apprenticeships, traineeships and trade qualifications, as well as pathways to tertiary education at TAFE NSW or university.
