## Tweed River High School

### Project update

February 2020

#### Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

#### Project overview

Tweed River High School will be upgraded to provide new permanent teaching spaces and core facilities to cater for future enrolment growth in the area. The upgrade will ensure Tweed River High School students have access to innovative learning environments that support future focused teaching and learning practices.

The scope of work includes a new library, a dedicated senior learning environment, upgrade of the student canteen and outdoor eating spaces, extension of current hospitality teaching facilities, and addition of a commercial kitchen and bistro to enable kitchen-to-plate education and training.

#### Progress summary

Concept designs for the upgrade have been developed in consultation with staff, students and parents. Schematic designs are being prepared and the planning approval pathway is being developed.

A tender has been released for an early works package and a contractor will be engaged by early March. A main works tender package will be prepared once schematic designs have been completed.

#### Next steps

Early works (Stage 1) are forecast to commence in March 2020 and main works (Stage 2) in June 2020.

#### School information sessions

To find out more about the project and view the concept designs you are invited to attend a drop-in information session at the Tweed River High School Hall.

Information sessions will be held on Monday 2 March 2020 at the following times:

- 8:00 to 9:30am
- 3:00 to 5:30pm
