Wagga Wagga Public School

Project update | November 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next 4 years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

In January 2019, a fire destroyed a building at Wagga Wagga Public School. A new facility is being built to replace the 6 classrooms that were lost in the fire. The new building will connect to adjacent buildings and include 6 modern learning spaces, 2 staff offices, new toilet facilities and a new lift.

Progress summary

Works are progressing on site. Works to build stairwell 1 and 2 and works to on the panels that will form the retaining wall along Johnson Street are completed. Plumbing and electrical installation services to the ground floor are complete and services to the first floor are underway. The play equipment has been installed.

Next steps

During Term 4, works will continue to install the windows and door frames in Block D. The lift will be installed and works to lay the soft fall under the play equipment are anticipated to be completed by in mid-November. Concrete works between the new building and Block E are anticipated to be completed by late-November, weather permitting.

The new building is nearing completion. From mid-December, contractors will start moving all furniture into the new building to prepare for Wagga Wagga Public School to use from the beginning of Term 1 2023.

Working hours

Works will be completed between the approved construction hours, which are 7 am to 6 pm Monday to Friday and 8 am to 1 pm Saturdays. There will be no work on Sundays or public holidays.

We are here to make sure that the works are completed safely and efficiently, with minimal impact on the community.

Thank you for your cooperation while we deliver this important school infrastructure.
