

Wangi Wangi Public School upgrade

The project will provide:

- new permanent, flexible and innovative learning spaces for six classes
- a new administration building and staff amenities
- a new canteen
- toilet facilities
- a new hall.

A refurbishment of the existing hall into special programs spaces was completed in early 2019.

What are innovative learning spaces?

Innovative learning prepares students across all curriculum areas and learning stages with skills and capabilities to thrive in a rapidly changing and interconnected world. It engages students based on their ability, interests and learning preferences and provides flexible, technology-rich teaching spaces for one-to-one, small groups and whole of class activities. Innovative learning spaces encourage collaborative learning between students and teachers.

Space

- There are zones for different activities, with varied furniture and resources – such as booths, standing tables, studios and bean bags.
- Spaces can be connected by glass or sliding doors to extend the learning space.
- No front of classroom.
- Spaces are designed to be shared by multiple classes.

Students

- Students have the ability to move around the learning space to encourage collaborative learning.
- Students working across a range of projects simultaneously.
- Students engaged in hands on learning, building and testing.

Teachers

- Movement around the learning space rather than the teacher being at the front of the room.
- Teachers planning learning together, for example in stage or faculty teams.
- Teachers teaching together to better meet the needs of students.

Learning

- Personalised learning, so each student is learning at their own level and pace.
- Students learning in large groups, small groups or individually.
- Students are working towards the same project in different subject areas, encourages cross disciplinary learning.

Technology

- Technology integrated into the space to extend learning.
- Accessibility of technology to suit different activities at point of need, for example filming and recording equipment.
- WiFi accessible across all learning areas.
