Wangi Wangi Public School upgrade

Project update

October 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Project overview

A project is underway to upgrade Wangi Wangi Public School. The project will provide new permanent, flexible and innovative learning spaces for six classes, a new administration building and staff amenities, a new canteen, toilet facilities and a new hall.

A refurbishment of the existing hall into special programs spaces was completed in early 2019.

Progress summary

The Project Reference Group has endorsed the schematic design for the main upgrade works and the detailed design is being finalised.

Works are progressing well with detailed excavation for the new hall currently underway and the majority of concrete slabs and footings for the new buildings now poured.

Construction of the building structure and roof as well as the second storey of the new learning spaces will commence in coming weeks.

Current activities include:

- Relocating in-ground utility services
- Pouring concrete slabs and footings for the foundations of the new buildings
- Delivery of equipment and materials.

Working hours

Work will take place during approved hours between 7am and 5pm, Monday to Friday and 8am and 1pm on Saturdays. No work will take place on Sundays or public holidays unless notified. We are here to make sure that work is completed safely and efficiently, and we will minimise impacts on the community at every opportunity.

Keeping you informed

School infrastructure NSW will continue to share construction updates and project information as the project progresses.

Thank you for your patience while we deliver this important school infrastructure, to meet future growth in the area.

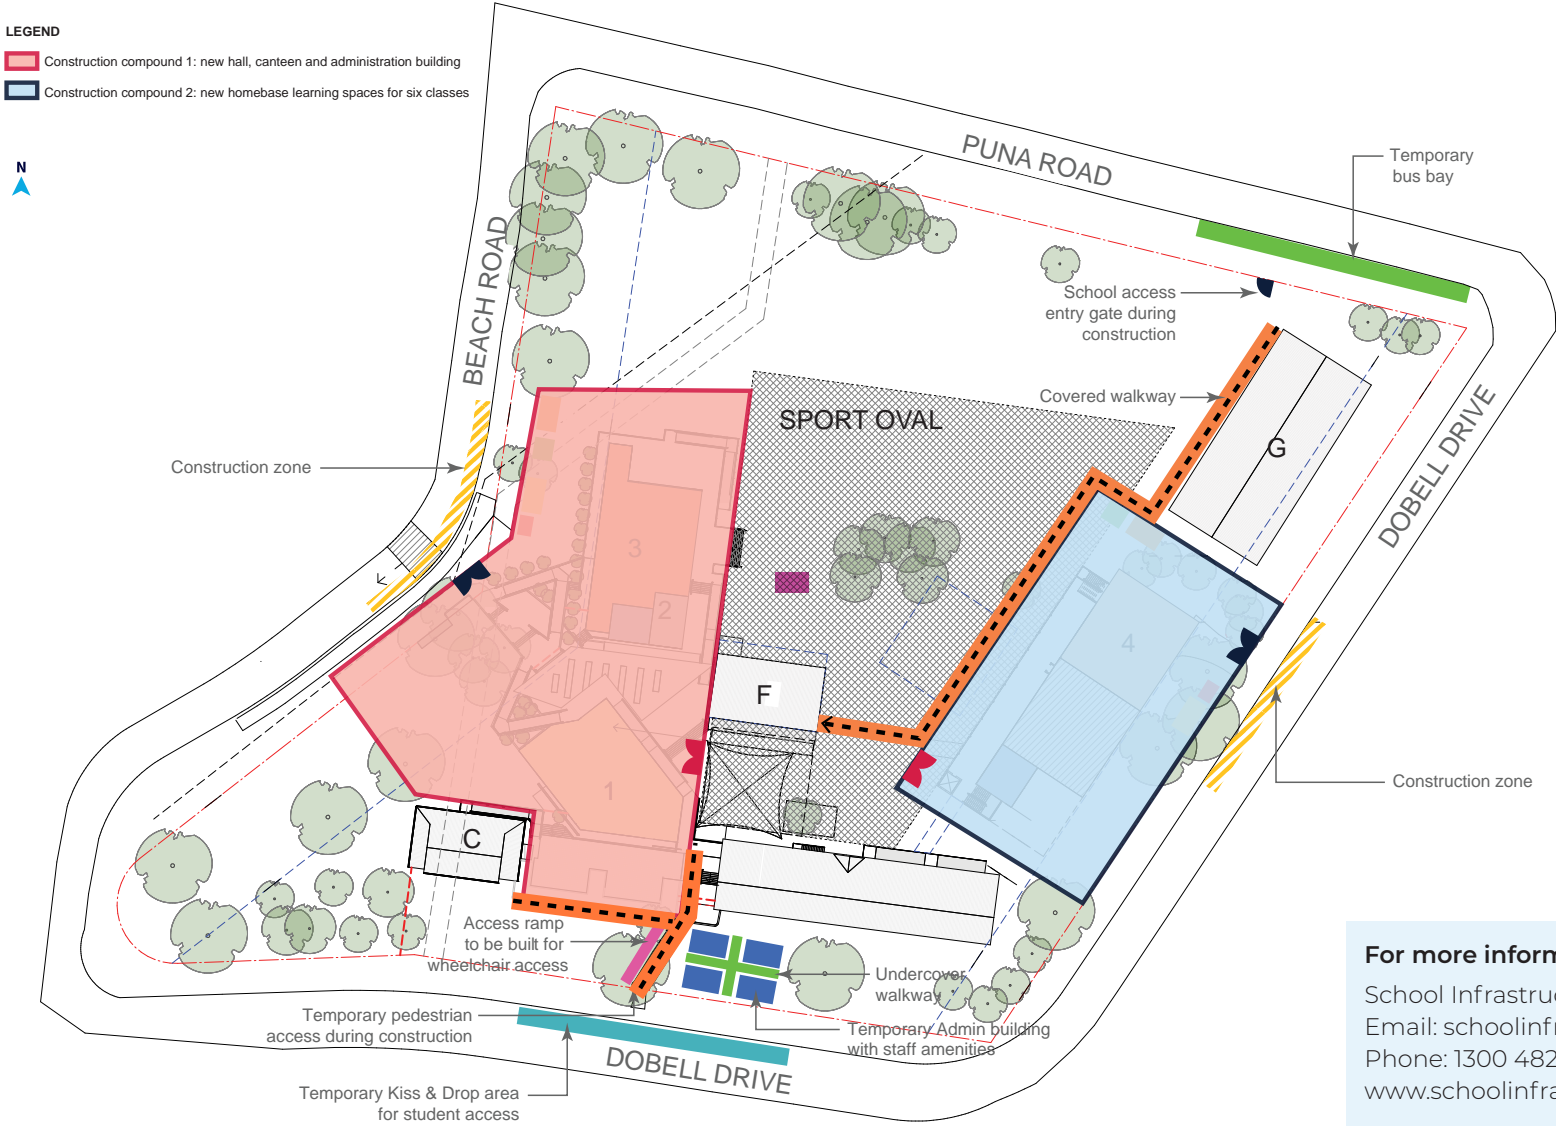

Community information session

A drop-in community information session has been scheduled for the first week of Term 4 to provide an opportunity to speak with members of the project team and learn more about the design of the new school facilities and the upcoming construction works.

Date: 2:30pm – 3:30pm, Thursday 17 October

Location: Wangi Wangi Public School
