

Wee Waa High School

Summer holidays works notification | December 2022

A project is underway to redevelop Wee Waa High School. The project will deliver new learning spaces, modern core facilities including a library and multipurpose hall, a new agricultural and environment centre, sports fields and sports courts as well as a new Indigenous Cultural Centre.

Upcoming works: Potholing investigations from 3 January 2023

From the week beginning on Tuesday 3 January 2023, potholing investigation will begin along George Street, Charles Street and Mitchell Street in preparation for the next stage of works to begin.

Potholing involves the drilling of small shallow holes of approximately 20 to 30 cm wide on the surface of the road to confirm the location of utility lines and any other existing structures that may be within the road.

A truck with a mounted surveying and detection equipment will be used to conduct the work. Traffic control personnel will guide traffic during works and no streets will be closed.

Tree removal works

Throughout January, approximately 12 trees will be removed from the existing site boundary as part of the main works of the project, under the approved planning consent. All works will be guided by a qualified arborist and in line with the project's Arborist Assessment report. The report can be found in the project page for Wee Waa High School redevelopment at <https://www.schoolinfrastructure.nsw.gov.au/> in the library tab in the reports section.

We recognise the important role that trees play on the school site and we will preserve as many as possible as part of the project. Removed trees will be replaced and additional trees will be planted throughout the site. More information about the trees that will be removed and replaced throughout the project was shared in the May 2022 information pack and information boards which can be found in the Wee Waa High School redevelopment project page at <https://www.schoolinfrastructure.nsw.gov.au/> in the library tab in the information packs section.

Working hours

The last working day at the site will be on Thursday 22 December 2022 and the first day back will be on Tuesday 3 January 2023. Construction hours are between 7 am and 6 pm Monday to Friday, and between 8 am to 1 pm on Saturdays.

If you have any queries or concerns about this project you can contact School Infrastructure NSW during business hours on 1300 482 651. School Infrastructure NSW will be closed from 5pm Friday 23 December 2022 to 9am Monday 9 January 2023, inclusive, in line with the NSW Government shut down period. During this time only, if there is an urgent issue please contact the site manager listed on the construction site entry. In an emergency, please call triple zero (000).
