

Wentworth Point Public School upgrade

Project update | September 2024

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$3.6 billion for new and upgraded schools in Western Sydney. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

A project to upgrade Wentworth Point Public School is in the final stages of planning for construction. The project includes a new four storey building facing Burroway Road to cater for the growing population in the Wentworth Point community.

26 new classrooms with 7 shared common areas

Ground floor support unit with 3 classrooms and dedicated amenities

Removal of demountable classrooms and opening play space

Internal reconfiguration of the existing library

Progress update

- The contract for the completion of the new permanent building has been awarded to Grindley Construction who are working with the school to finalise a timeline for construction.
- Site establishment will occur in October 2024 in preparation for construction. More details will be provided as they become available.
- Detailed design will be finalised in conjunction with the contractor.

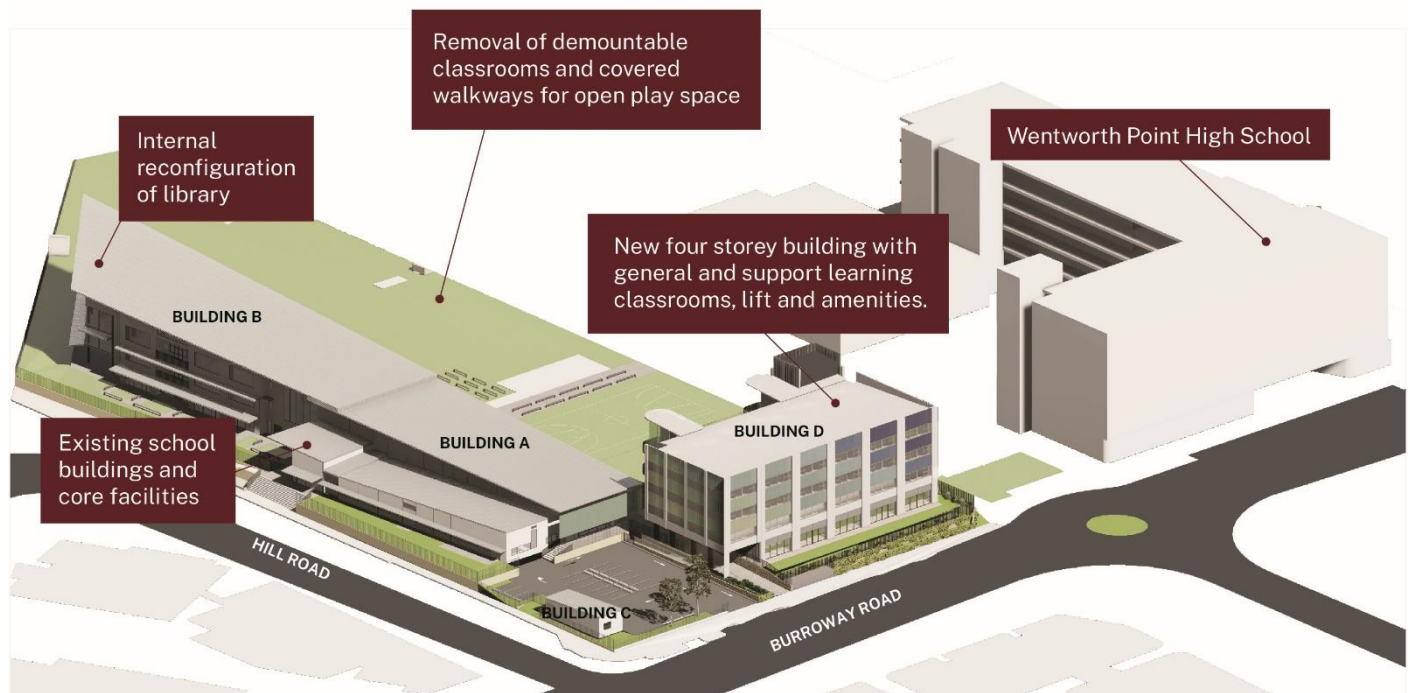

Next steps

- Work will start on site with the establishment of a construction compound. More details will be shared in future updates.
- An information session will be held in Term 4 to share details of the timeline for completion, and how we manage construction impacts for the school and wider community.

Overview of the upgrade

Minimising construction impacts

Construction can be disruptive, and we thank you for your patience while we complete this important school upgrade project.

Usual work hours for the duration of the project will be from 7am to 5pm Monday to Saturday with no work expected on Sundays or public holidays. On occasion work may occur outside these hours. This work will be notified in advance, or if unexpected, as soon as possible after.

We work closely with the construction contractor throughout the project to manage impacts on the school and local community. We expect their support to reduce the impact of the work, with measures including:

- communicating with the school to ensure they are aware of all work happening
- communicating with the wider community when there are disruptive works happening
- monitoring noise levels and locating noisy equipment away from classrooms
- timing very noisy work outside school exams and other important school events
- dust control to keep dust contained within the construction site
- working closely with Wentworth Point High School to ensure impacts across both schools are minimised

For more information about how we manage construction impacts on our projects, please scan the QR code or visit edu.nsw.link/ConstructionImpacts
