

Wentworth Point Public School upgrade – Stage 2

Works notification | 7 July 2025

As part of the NSW Government's commitment to upgrading local schools, work is continuing at Wentworth Point Public School to deliver new permanent classrooms, an upgraded library, and more outdoor play space for students.

Concrete pour update

As per the [works notification distributed on Thursday 3 July 2025](#), we are preparing for further concrete pours for the new Building D. Due to recent inclement weather, the building's second-floor slab will now be poured over two days on Tuesday 8 July 2025 and Thursday 10 July 2025, weather permitting.

- Traffic controllers will be onsite during work hours to assist with pedestrian safety.
- We will take every effort to minimise noise during the pours, including reducing the time that trucks are stationary.
- Increased truck movements are expected in the area between 7 am and 5 pm.

Should weather impact these works, they will take place on the next available dry day.

We appreciate your understanding and cooperation as we work to improve facilities for our students and the community.
