

# Wentworthville Public School Upgrade

## Works notification

April 2020

### Upcoming remediation works

We last notified you on 13 March to advise of the ongoing remediation of asbestos containing material at Wentworthville Public School. As part of the upgrade project, asbestos containing material will continue to be remediated over the coming months.

All removal and remediation works are carried out in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW requirements. Air monitoring will be in place and a clearance certificate will be issued by an independent occupational hygienist before students and staff return to school each week until the completion of these works. The health, safety and well-being of the school community, local residents and workers is our highest priority.

Testing will be completed to ensure the site has been fully remediated. We will keep you informed if further material is found which requires removal.

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

### Hours of work

Work to remediate the asbestos containing material is expected to start on **14 April 2020** and will be completed by licensed asbestos removalists. These works will continue throughout the Easter holidays until **27 April 2020**.

Works will occur in line with the approved working hours set by the Department of Planning, Industry and Environment. The approved hours for work are between 7:00am and 6:00pm Monday- Friday and Saturdays between 8:00am and 1:00pm.

Please be advised that air monitoring and other safety measures are in place to ensure works will not pose a risk to the community. If at any time adverse weather, like strong winds, could impact this work, additional precautions will be implemented.

Thank you for your cooperation during this important work.
