

West Ryde Multi-Sports Facility

Works notification | 25 February 2024

With Marsden High School relocated to the Meadowbank Education and Employment Precinct in early 2022, the former school site is being transformed into the West Ryde Multi-Sports Facility. This new community asset will provide more recreation space for residents and visitors.

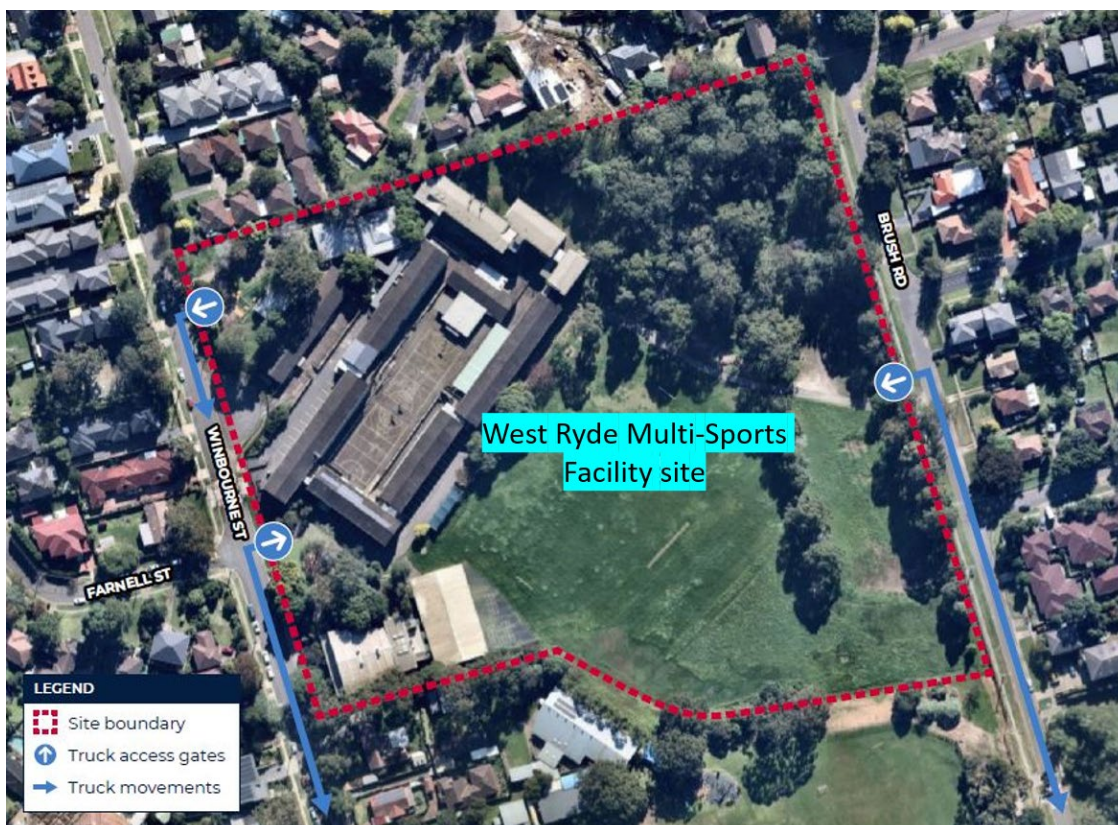

Temporary stormwater works to start from Monday 26 February 2024

Recent wet weather conditions have resulted in excessive amounts of water flowing from the former school site onto neighbouring properties. To address this, we will be installing a swale drain which will divert the water flow to an existing pit.

Installation of the swale drain will start during the week beginning 26 February 2024 between the hours of 7:00 am to 4:00 pm Monday to Friday. This work is expected to take around one week to complete, weather and site conditions permitting.

Heavy vehicles including a truck and an excavator will enter the site via Winbourne Street and park onsite. We don't anticipate there will be any changes to local traffic or vehicle movements, however traffic controllers may be used where required to manage the safe entry and exit of vehicles. Please follow the directions of traffic controllers when in place.

The below map indicates the truck and excavator movements during these works.

Thank you for your patience during this important work.
