

# West Ryde Public School

## Works notification

March 2019

### Site establishment

Site establishment is now underway to prepare West Ryde Public School for main construction works.

Key works include the installation of fencing, setup of construction facilities, preparation of the construction area, and establishment of site access points.

Work will take place from 7am to 5pm Monday to Friday and 8am to 5pm on Saturdays.

### Safety

The safety of the school community and neighbours is of the highest priority.

A dedicated entrance has been established for the contractor, with all vehicles entering and exiting via Endeavor Street. The delivery of construction materials and equipment will be scheduled outside of school drop-off and pickup times.

The work is being completed under an Environmental Management Plan, which includes strategies for managing noise, dust, air quality and hazardous materials.

Work updates will be provided throughout the construction.
