## Message from the Principal

It is with much excitement that I share that the upgrades at Wilton Public School have recently been finalised for use by students and staff.

We are thrilled to be able to use the new library, COLA and other new facilities, on top of the 22 new high quality, air-conditioned, spacious classrooms fully equipped with the latest technology and modern design. We will continue to provide our students with inspiring, high quality, and innovative learning in modern, flexible learning environments.

Our focus is on the education of the whole child, setting high expectations, striving for excellence and empowering our students to achieve their personal learning goals. Your children will always remain at the heart of what we do. It has been an absolute privilege to be part of the journey from the beginning with a team of dedicated and talented staff.

We thank you for your patience during the period of construction and look forward to celebrating these new and upgraded facilities with the school community.

Your sincerely,

**Debra Gray, Principal**
