

# New primary school in Wilton Junction

## Project update | July 2024

### Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

### Progress overview

Early planning for a new primary school in Wilton Junction is now complete. It is anticipated the new primary school in Wilton Junction will include:

- New permanent, fit-for-purpose classrooms and open spaces
- Core facilities such as a new library, hall and a covered outdoor learning area (COLA)
- New administration and staff areas
- New support learning classrooms.

The master plan has been developed providing a basic layout of the new school. Please note the scope is indicative and subject to change pending approvals and the next stages of design and planning.

A Project Control Group (PCG) has been established and includes representatives from the NSW Department of Education, School Community Group (SCG) leadership, and design professionals. The purpose of the PCG is to assist in the development of the project's scope of work to ensure that it aligns with the needs of the community now and into the future.

## Map layout of proposed school

## Next steps

Consultants and the design team will continue to work on the detailed planning in preparation for the upcoming delivery phases. This will involve consideration of education requirements, traffic and transport links and possible shared area opportunities.

## How can I get involved?

We are committed to working together with our school communities and stakeholders to deliver the best learning facilities for students. We will continue to distribute regular project updates to keep the community informed of progress. A project webpage is available where you can find updates about this project. Simply scan the QR code (below) or visit <http://edu.nsw.link/WiltonJunctionNPS>.

If you have any queries or concerns about this project, you can contact School Infrastructure NSW at [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au) or phone during business hours on 1300 482 651.

## **Want to know more about how we build and upgrade schools?**

We design and deliver schools to suit the individual needs of the local school community. As a result, no two schools are exactly the same. What remains consistent is school infrastructure that empowers teachers to prepare students with the skills and capabilities they need to thrive in a rapidly changing and interconnected world.

Take a look at some of the upgrades we have delivered and see how these varied spaces support teaching and learning. Simply scan the QR code (below), or visit [edu.nsw.link/SchoolShowcase](https://edu.nsw.link/SchoolShowcase).
