

Wollumbin High School

Project update | March 2025

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

Following the return to two separate high schools in Murwillumbah, School Infrastructure is carrying out a range of works at Wollumbin High School to provide improved facilities for students and staff.

Progress update

Work completed during the summer school holiday period and into early Term 1, has delivered:

- Fresh, refurbished student toilets with new paint and cubicles
- New paint and carpet for a number of classrooms and spaces across the school
- A new pottery kiln
- A refurbished student canteen with new benchtops, electrical, paint, and appliances
- New chilled water bubblers
- Resurfaced and repainted sports court
- A new shed for the school minibus.

Next steps

Work is continuing to plan the rest of the upgrade, which will include creating music classrooms in Block G and redeveloping Blocks R and H to provide facilities for specialist support classes.

A contract for these works is expected to be awarded during Term 2. The timeline for building will be confirmed once a contractor has been engaged but it is anticipated that the upgrade will be complete by the end of 2025.
