

# Yagoona Public School

## Site establishment notification

November 2018

### Investing in our schools

The NSW Government's 2018/19 Budget includes \$6 billion over four years to deliver more than 170 new and upgraded schools. A further \$160 million has also been invested as part of the record \$747 million maintenance investment announced last year. This is the largest investment in public education infrastructure in the history of NSW.

### Yagoona Public School

A project is underway at Yagoona Public School. The project will provide:

- 16 new permanent classrooms
- Associated toilets
- A new administration building on the ground floor of the new classroom block.

### Progress summary

The Development Application has been approved and the construction contract has been awarded. The final design is underway.

### Next steps

Site establishment will prepare the area so that construction can begin. We will install shade cloth and hoarding on the site and by demountables shortly thereafter.

To minimise traffic and parking impacts, workers will park away from the school and deliveries will be scheduled outside of drop-off and pick-up times where possible.

Construction will take place between 7am and 6pm Monday to Friday and between 8am and 4pm on Saturdays.

### Working with us

Our commitment to act in the best interests of our stakeholders and the local community is at the forefront of our work.

We will continue to share information about this upgrade through information booths, project updates, school newsletters and the website.
