

Yanco Agricultural High School

Project update | May 2023

Project overview

We are undertaking planning for an upgrade of the boarding accommodation at Yanco Agricultural High School. The proposed upgrade involves the construction of new accommodation facilities and improvements to existing buildings.

The project aims to deliver enhanced learning outcomes for students through improved accommodation with:

- the removal of the temporary female boarding facilities
- the construction of a new permanent female boarding facility, and
- the partial refurbishment of existing permanent boarding facilities to ensure they are fit for purpose.

Progress update

- The demolition of the temporary female boarding facilities and demountables were completed in February 2023.
- The Development Application for the Yanco Agricultural School upgrade has been approved by the Leeton Shire Council.

Next steps

Site establishment at the new female boarding facilities will start June 2023 followed by bulk earthworks, in-ground service works and tower crane installation in preparation for the construction of the new female boarding facilities.

Frequently asked questions

When will Buildings E, D, G, J and Q be upgraded?

We will progressively upgrade Buildings E, D, G, J and Q during the school and summer holidays. Before any work starts at these boarding facilities, we will share more information with the school community.

The SINSW project team will regularly consult with the school to discuss construction progress. Any safety concerns will be addressed to ensure the safety and security of students and staff at all times.

What safety measures will be in place?

The health and safety of the community are our highest priority. Fencing will be in place around the construction site securing the area and preventing public access. This will remain in place until the main works are complete. Traffic control measures will be in place as required.

How will the school community be kept up to date?

During work we will issue regular notifications to keep the school community informed of progress and upcoming activities on site. To find out more about how we communicate during delivery visit our website edu.nsw.link/ConstructionImpacts or scan the QR code.

How can I get involved?

We are committed to working together with our school communities and other stakeholders to deliver the best possible facilities for students. Your feedback on this project is important to us. For more information, questions, or to make a comment please contact us on the details below or visit the project webpage by searching '[Yanco Agricultural High School upgrade](#)' on schoolinfrastructure.nsw.gov.au.
