Yass High School

Project update | June 2022

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

An upgrade is underway for a new multipurpose hall at Yass High School. The hall will include a basketball court, stage, storage and amenities.

Progress summary

The new hall at Yass High School is progressing well with our builder recently completing:

- the ground level and suspended concrete slab pours
- installation of sections of the hall's façade with low level blockwork
- installation of structural steel to form the frame of the new hall.

Construction has been affected by extended periods of wet weather and this continues to impact the progress of some works on site.

We expect to be able to confirm a completion date in the coming months and will continue to provide updated information about project as it progresses.

Next steps

In the coming weeks, the builder will:

- frame and install cladding for the external façade of the new hall, and
- install roof sheets and gutters.

Working hours

Working hours are Monday to Saturday, 7 am to 5 pm. No work will occur on Sundays or public holidays, unless otherwise advised.

We thank you for your patience and understanding as we continue to deliver this important project.
