

# Cabbage Tree Island Public School

Planning update | 5 September 2023

Dear staff, families/carers,

We understand the recent announcement about the future of housing on Cabbage Tree Island may raise questions about the department's intentions for the rebuild of Cabbage Tree Island Public School.

The department will work with Jali Local Aboriginal Land Council (LALC), the community and other stakeholders, including the relevant government agencies and planning authorities, to determine the most appropriate setting for Cabbage Tree Island Public School in the future.

Please be assured no decision will be made before talking to the local community.

We will update you as soon as possible.
