

Mullumbimby High School

Works notification

September 19, 2022

School Infrastructure NSW and Public Works are managing the repair of buildings and grounds at Mullumbimby High School that were damaged by flood waters in early 2022. This includes significant repairs to the staff administration and office areas, the school library, gym, performance space and school grounds. Planned maintenance is also being carried out as part of the project.

School holiday work

Roof replacement

Work is scheduled to begin on Monday, 26 September to replace the roof of Block A, which is used for staff offices and administration.

The roof replacement is expected to take 10 working days and will be carried out during the school holidays to minimise operational impacts on Mullumbimby High School.

Scaffolding will be in place around the building during the roof works. Exclusion zones will remain in place around work areas while until all work on Block A is complete.

Entry to site will be via Jubilee Avenue, with traffic control in place to direct motorists and assist pedestrians, where needed.

Mould remediation

Contractors will continue mould remediation work in flood-damaged buildings at Mullumbimby High School during the school holidays.

Specialists will be carrying out mould remediation inside flood damaged buildings and will be wearing the protective equipment recommended by the occupational hygienist who has assessed the Mullumbimby High School site.

The work will include treating mould in the flood affected buildings and removing mould contaminated material, including wall linings. Affected areas will remain out of bounds and only accessible by approved project team members.

Contractors undertaking the work will enter and leave the school from a designated entry point on Jubilee Avenue.

Contact us

If you have any questions about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651 or email schoolinfrastructure@det.nsw.edu.au. In an emergency, call triple zero (000).

We are here to make sure that work is completed safely and efficiently, and we will minimise impacts on the community at every opportunity. Thank you for your patience while we undertake this important work.
