

Adamstown Public School

Works notification | 12 December 2025

Dear neighbour,

In July 2025 we notified you about a development proposal to install a demountable modular building on the north-western side of Adamstown Public School. This building will provide improved spaces for use by the school and the Outside of School Hours (OOSH) service in the form of an OOSH Hub.

Work to prepare the site and install the OOSH Hub will begin on Wednesday 17 December 2025. Installation will continue over the summer holidays and is due to be finished by Friday 20 February 2025.

During this time, the area will be fenced off with signs in place. The hub will be connected to the existing stormwater system at the school.

Any feedback received by the department in response to the July 2025 notice was carefully reviewed and taken into consideration by the town planners.

The OOSH Hub falls under development permitted without consent, which required a review of environmental factors. The department is not required to respond to each individual community member who submitted feedback as part of the review.

What to expect during construction

There may be some noise while work is taking place. We are committed to managing noise in line with regulatory requirements and will make every effort to ensure works are carried out safely and efficiently with minimal disruption to the community.
